

TENTERFIELD SHIRE COUNCIL

POLICY STATEMENT

HEADING:

Standard Engineering Design Drawings

MEETING ADOPTED AND RESOLUTION NO.:

**23 August 2017
168/17**

HISTORY OF DOCUMENT PREVIOUSLY ADOPTED:

**28 November 2012 478/12
25 November 2015 380/15**

Introduction:

This policy sets out Council's required standards for the construction of new Engineering infrastructure by Council or developers.

Policy:

New Engineering infrastructure constructed by Council or others will be in accordance with the latest revision of the Standard Drawings developed by the IPWEA and available at <http://www.engicom.com.au/products/standard-drawings-2/>.

Compliance with the IPWEA standard drawings is not required when:

- A specific design requirement is described in another Council policy;
- An explicit condition of a Council Development Application conflicts with the Drawings;
- Requirements of another Authority, for example Roads and Marine Services (RMS) conflict with the drawings;
- The Council's Director of Engineering Services approves an alternative design on the basis of considerations including (but not limited to) site conditions, cost benefit or geometric restraints.
