

The corners and boundaries of the proposed extension are to be planted with new native trees to breakdown the hard lines of the site boundary geometry and soften views to and from proposed adjoining subdivision. This will also extend the Bushland Memorial area character into the extension.

LEGEND:

Not for construction.

Existing boundaries and features approximate location only. Tree positions appoximate only.

1 OF 2

Proposed new access road (oneway circuit), including shoulder parking, to provide long term access to all expansion areas. Centre of circuit is punctuated by a memorial rose garden and niche walls. Long term civic scaled tree planting is to define the memorial garden and provide shaded seating. Native tree planting on the north-south access paths will link this area to the Bushland Memorial area and native

PLANT PHOTINIA GLABRA IN A RANDOM GRID PATTERN AROUND THE PERIPHERY OF THE NEW MEMORIAL AREA.	
PLANT MEMORIAL AREA WITH LONG PASTURE GRASSES THAT WILL GROW TO A HEIGHT OF APPROXIMATELY 250MM.
