

# THE NSW BUSHFIRE CLEAN-UP PROGRAM IS NOW UNDERWAY

Since being appointed by the NSW Government for the important task of coordinating the NSW bushfire clean-up program, the Laing O'Rourke team has been busy getting on with the job as quickly and safely as possible. Progress is now well underway right across the State.

## The clean-up service is free

The Australian Government and NSW Government are jointly funding the clean-up of destroyed or damaged buildings on eligible residential, small business and primary production properties impacted by NSW bushfires from 1 July 2019. This program is voluntary and free of charge for insured and uninsured property owners.

## Please make sure you register as soon as possible

To ensure that we can complete the clean-up as quickly as possible, we urge impacted community members to register for this service as soon as possible.

You can register by calling **13 77 88** or visiting [www.service.nsw.gov.au/transaction/register-opt-nsw-bushfire-clean](http://www.service.nsw.gov.au/transaction/register-opt-nsw-bushfire-clean)

## We want local contractors to help deliver this work!

We will be prioritising local contractors to help deliver this important work, helping to support economies in regional NSW.

To do that, we need a wide range of local contractors to help with tasks as varied as haulage, licenced asbestos assessors and removalists, contamination removalists, plant hire, labour hire, traffic control, temporary fencing and much more.

If you think your business can help with the recovery effort, please register your interest by visiting [nswbushfirecleanupprogram.icn.org.au](http://nswbushfirecleanupprogram.icn.org.au)

## Mental health support services

Natural disasters are traumatic events and have an impact on much more than just the physical environment. They can have a profound effect on the mental health and wellbeing of affected communities.

We encourage anyone needing support at this time to engage with the broad range of mental health and wellbeing services available. They can be accessed via [www.service.nsw.gov.au/campaign/bushfire-customer-care-service/mental-health](http://www.service.nsw.gov.au/campaign/bushfire-customer-care-service/mental-health)

The NSW Bushfire Clean-Up Program is fully funded by the State and Federal Governments. This service is free and optional.

## Managing the risks of COVID-19

Laing O'Rourke has made some changes to the way it is delivering the NSW bushfire clean-up program to ensure it can continue to be rolled out as quickly and as safely as possible.

The changes have been designed to protect the health and safety of the community, contractors and our people, while also ensuring work can continue at pace.
