

TENTERFIELD SHIRE COUNCIL – Monthly Operational Report - October 2019

Councils are far more complex organisations than even those people who work in local government would believe. One of the most difficult things to achieve, when there are so many tasks and so many people working on them (spread over a wide area in Tenterfield’s case) is to ensure that there are no ‘grey areas, oversights or overlaps’. Having the ‘*left hand know what the right hand is doing*’ is essential. It improves efficiency, reduces conflict and ensures that we achieve more without wasting energy. It also reduces frustration for those doing the job and our customers alike.

The majority of the public do not know what local government does. I cannot blame them, as it has taken me 35 years to get to the stage I think I know, and I work in local government as a Chief Executive Officer, so I am not surprised to regularly hear the following statement;

"There so many people in the office, I can remember when there was only the Shire Clerk and a couple of others, what do they do?"

The simple answer is that local government’s accountabilities have grown from *roads, rates and rubbish* to this (long) list below. Most of the list covers legislated responsibilities, meaning, we have no choice. Others are things that if we did not manage, the cost escalation from risks incurred would far outweigh the perceived savings. It would come as a big surprise to most that there are very few ‘nice to haves’ in the list (things we do because we chose to, not because we have to).

The list of accountabilities local government is required to do is continually growing. State Governments take every opportunity to delegate as many responsibilities to local governments as possible; it’s been named as ‘cost shifting’. As an industry we have lobbied every year for decades for cost shifting to cease, to little avail. It has just happened again; local government has been handed the responsibility for crown lands. The ramifications of this are not known yet, however there is one fact that is known for sure, the State Government wouldn’t be shifting the responsibility of crown land to local government if it were profitable. As local government has no powers under the constitution we are likely to be the recipient of many other shifts of responsibility as well. Capped income through rates pegging severely limits local government to pass any extra costs on. Even if all costs were passed on there is a limit to which communities can afford to afford to pay (in rates), or would be happy to pay anyway. Cost shifting and rates capping mean we must improve our effectiveness and efficiency at a rate at least equal to the task to remain viable and improve our prosperity.

It is a requirement of the Local Government Act (Integrated Planning & Reporting Framework), that we report on how well we achieve in delivering the 4 Year Delivery and 1 Year Operational Plan objectives. We already do this. But as it is linked to the Community Strategic Plan, which is very ‘big picture’, much of what we are actually required to do to keep Tenterfield running, is not captured. It is timely that we, as an organisation, document and measure everything that we do. If you were to ask ‘Mr or Mrs John Smith’ they’d probably only be able to name ten percent of our accountabilities. Documenting what we are required to do is therefore essential.

I’ve said many times, if you measure it, you can manage it, if you manage it, you can improve it. When you improve it, you can celebrate it!

Essentially the major drivers of this success will be how we manage people, money, and technological aspects of these 77 sub-programs, as follows:

- | | | |
|---|---|---|
| 1. Strategic direction and planning | 18. Library | 35. Tree management |
| 2. Corporate relations & inter-governmental affairs | 19. Community Grants | 36. Street and public domain lighting |

52.Urban design	61.Noxious plants	70.Storm water
53.Land use data management & mapping	62.Roads & footpath enforcement	71.Natural waterways
54.Land use reporting	63.Illegal dumping	72.Property investments/divestments
55.Heritage	64.Domestic animal management	73.Private works
56.Regulating premises	65.Transport (roads, bridges and airstrip)	74.Cemeteries
57.Assessment	66.Water supply, filtering and distribution	75.Quarries
58.Built form compliance	67.Sewer	76.Cycleways, pedestrian paths and footpaths
59.Environmental regulation	68.Waste management and recycling	77.Crown lands (including Native Title)
60.Public health	69.Economic development	

This process is not as simple as allocating the 77 sub-programs to staff and then saying to them ‘go deliver’. Almost all of the 77 sub-programs require long-term forward planning (strategy), they also require someone to ‘own’ the accountability (manager). They often require someone (usually a project manager) to augment, build or embellish whatever they need (deliver) in the first instance, and lastly, almost all will require ongoing day-to-day servicing (service). (These usually quite different personal attributes and skill sets; sometimes a specialist. Even if they do not, they are often delivered in different times and quantities. For this reason the accountabilities have been devolved into four generic types.)

‘A’ accountability stands for *strategy*; where we need to be, what we need to achieve – the policy, direction, outcome and timing the organisation requires. The strategic accountability always rests with an executive staff member. (E.g.; Chief Executive, Chief Operating Officer or Chief Corporate Officer)

‘B’ accountability represents a ‘*business owner*’; the person who oversees the running of the activity, usually a manager or senior person. The ‘owner’ of the accountability will usually have staff reporting to them. People that share parts of an accountability have ‘tasks’. There can be the same ‘task’ completed by many staff, but they all cannot have the ‘accountability’. Only one person has the accountability on each level. (E.g. Works Manager looks after the ‘business’ of civil asset maintenance and is ‘accountable’, but has lots of staff with specific ‘tasks’ to assist, such as four grader operators who maintain unsealed roads. Each of whom has the ‘task’ of grading. Multiple grader operators have a list of the same ‘tasks’, the works manager holds the ‘accountability’.)

‘C’ accountability represents the person who develops, designs, delivers or project manages; this person works out how to augment changes, or delivers something – either tangible or non-tangible. (E.g. Governance Coordinator reviewing the customer service protocols (non-tangible), Project Manager building a bridge (tangible).)

‘D’ accountability represents the ‘service’; the person with a service accountability that completes the activity on an ongoing daily, weekly or regular basis. (E.g. processing invoices in accounts payable, working in the Water Filtration Plant, gardening in town streets, grading roads.)

The 77 sub-programs broken up into strategy, management, projects and services equates to 967 individual accountabilities.

This further emphasises how important it is to allocate, measure, manage and subsequently improve the outcomes such that we can celebrate our effectiveness. Having access to a monthly reporting framework will also greatly assist us to determine what resources we need to allocate in what areas based on risk and reward and the Delivery and Operational Plans: when the inevitable gaps in organisational capacity become clearer. It’s not an adequate excuse to say, “I haven’t the time or resources”, unless it can be underpinned by proof. This process will bring a new and much needed level of transparency to our organisation. It will also mean we will become very familiar with what the community’s expectations are, as represented in the 4 Year Delivery Plan, which will give us a much better chance to remain focused on our outcomes.

CONCLUSION

The only constant in life, is change. Every year our ‘Operational Plan’ will change. Every year more accountabilities will be thrust upon us by higher levels of government amending the Local Government Act or changing protocols. Unless we adopt a ‘continual management of change’ system to run our organisation, that reviews how these accountabilities and capabilities are addressed and allocated to our *Section* and *Directorate Plans*, we will be constantly at risk. This ‘system’ will allow seamless and continual change.

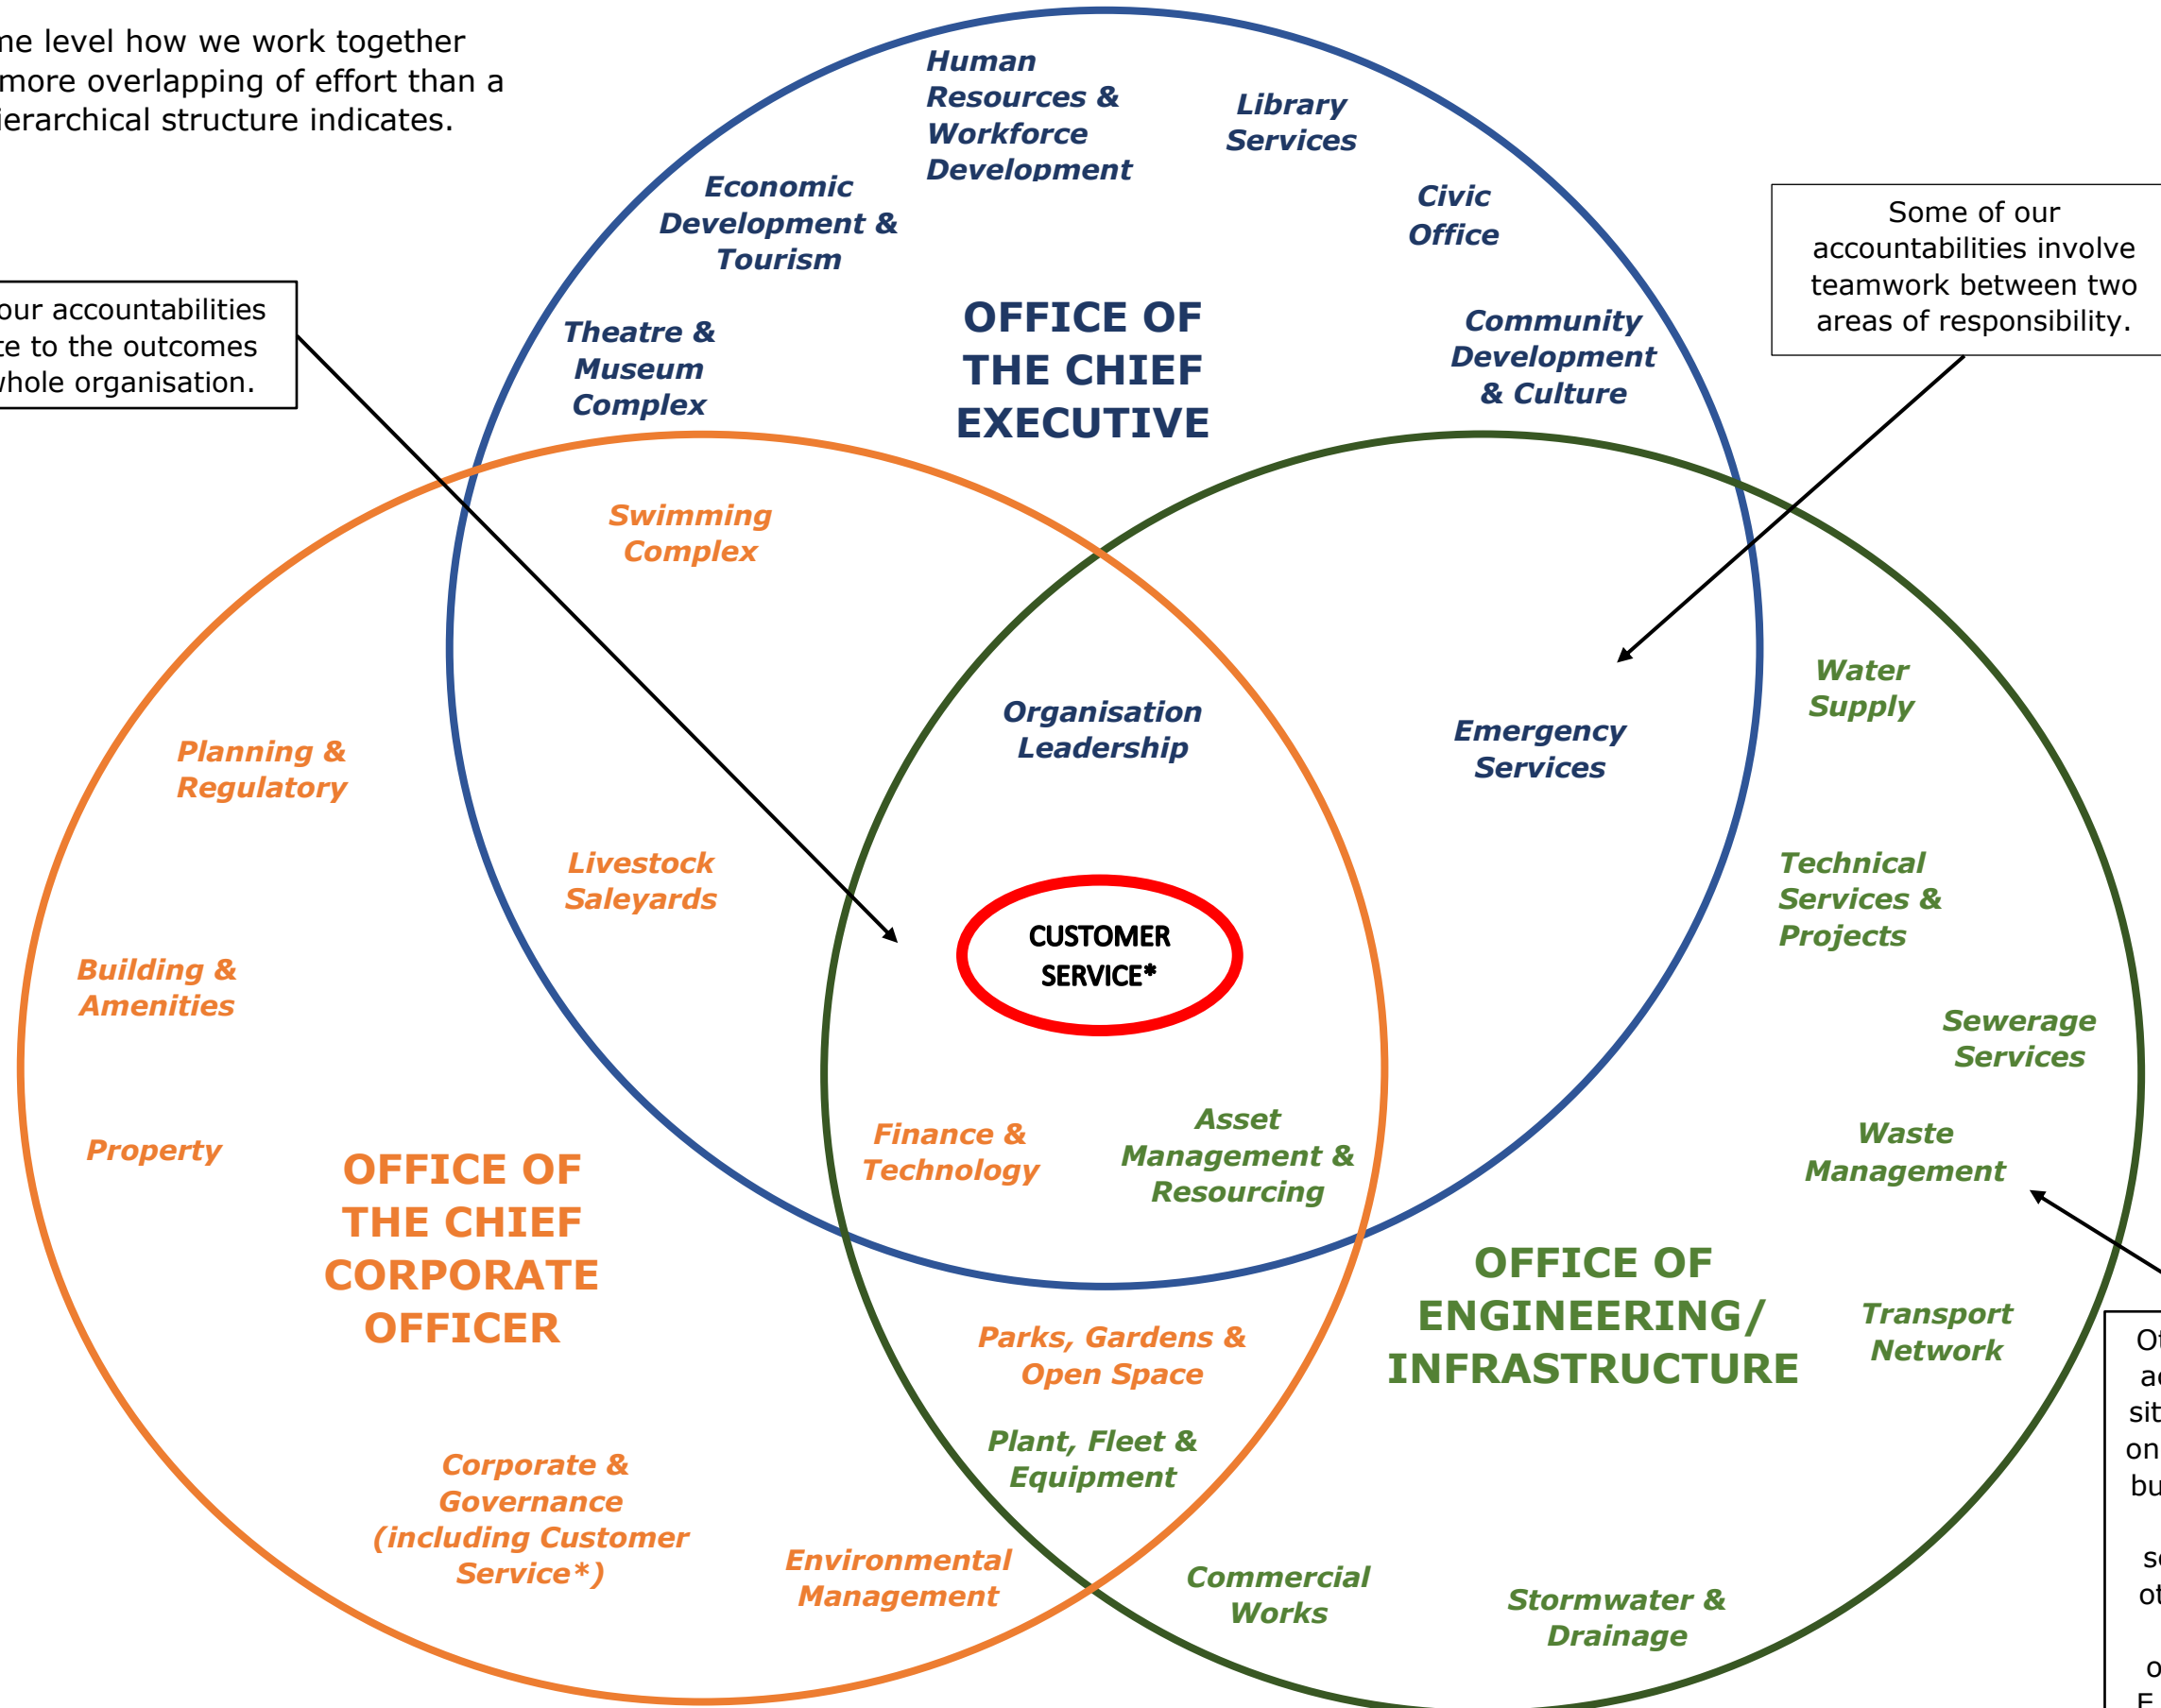

We report on our Delivery Plan quarterly. We also report on many other things in a great many ways. Currently we use multiple platforms to achieve this, which is both inefficient and extremely frustrating. This system will not only change the amount of reporting, it will place all the information in one location.

Lastly, in adopting such a transparent and simple model we will be able to adjust our efforts using a *helicopter viewpoint* of the whole organisation, not just various component parts. But most importantly, it will allow us to work better together. That will be an achievement in itself, and definitely worth celebrating.

Terry Dodds, Chief Executive

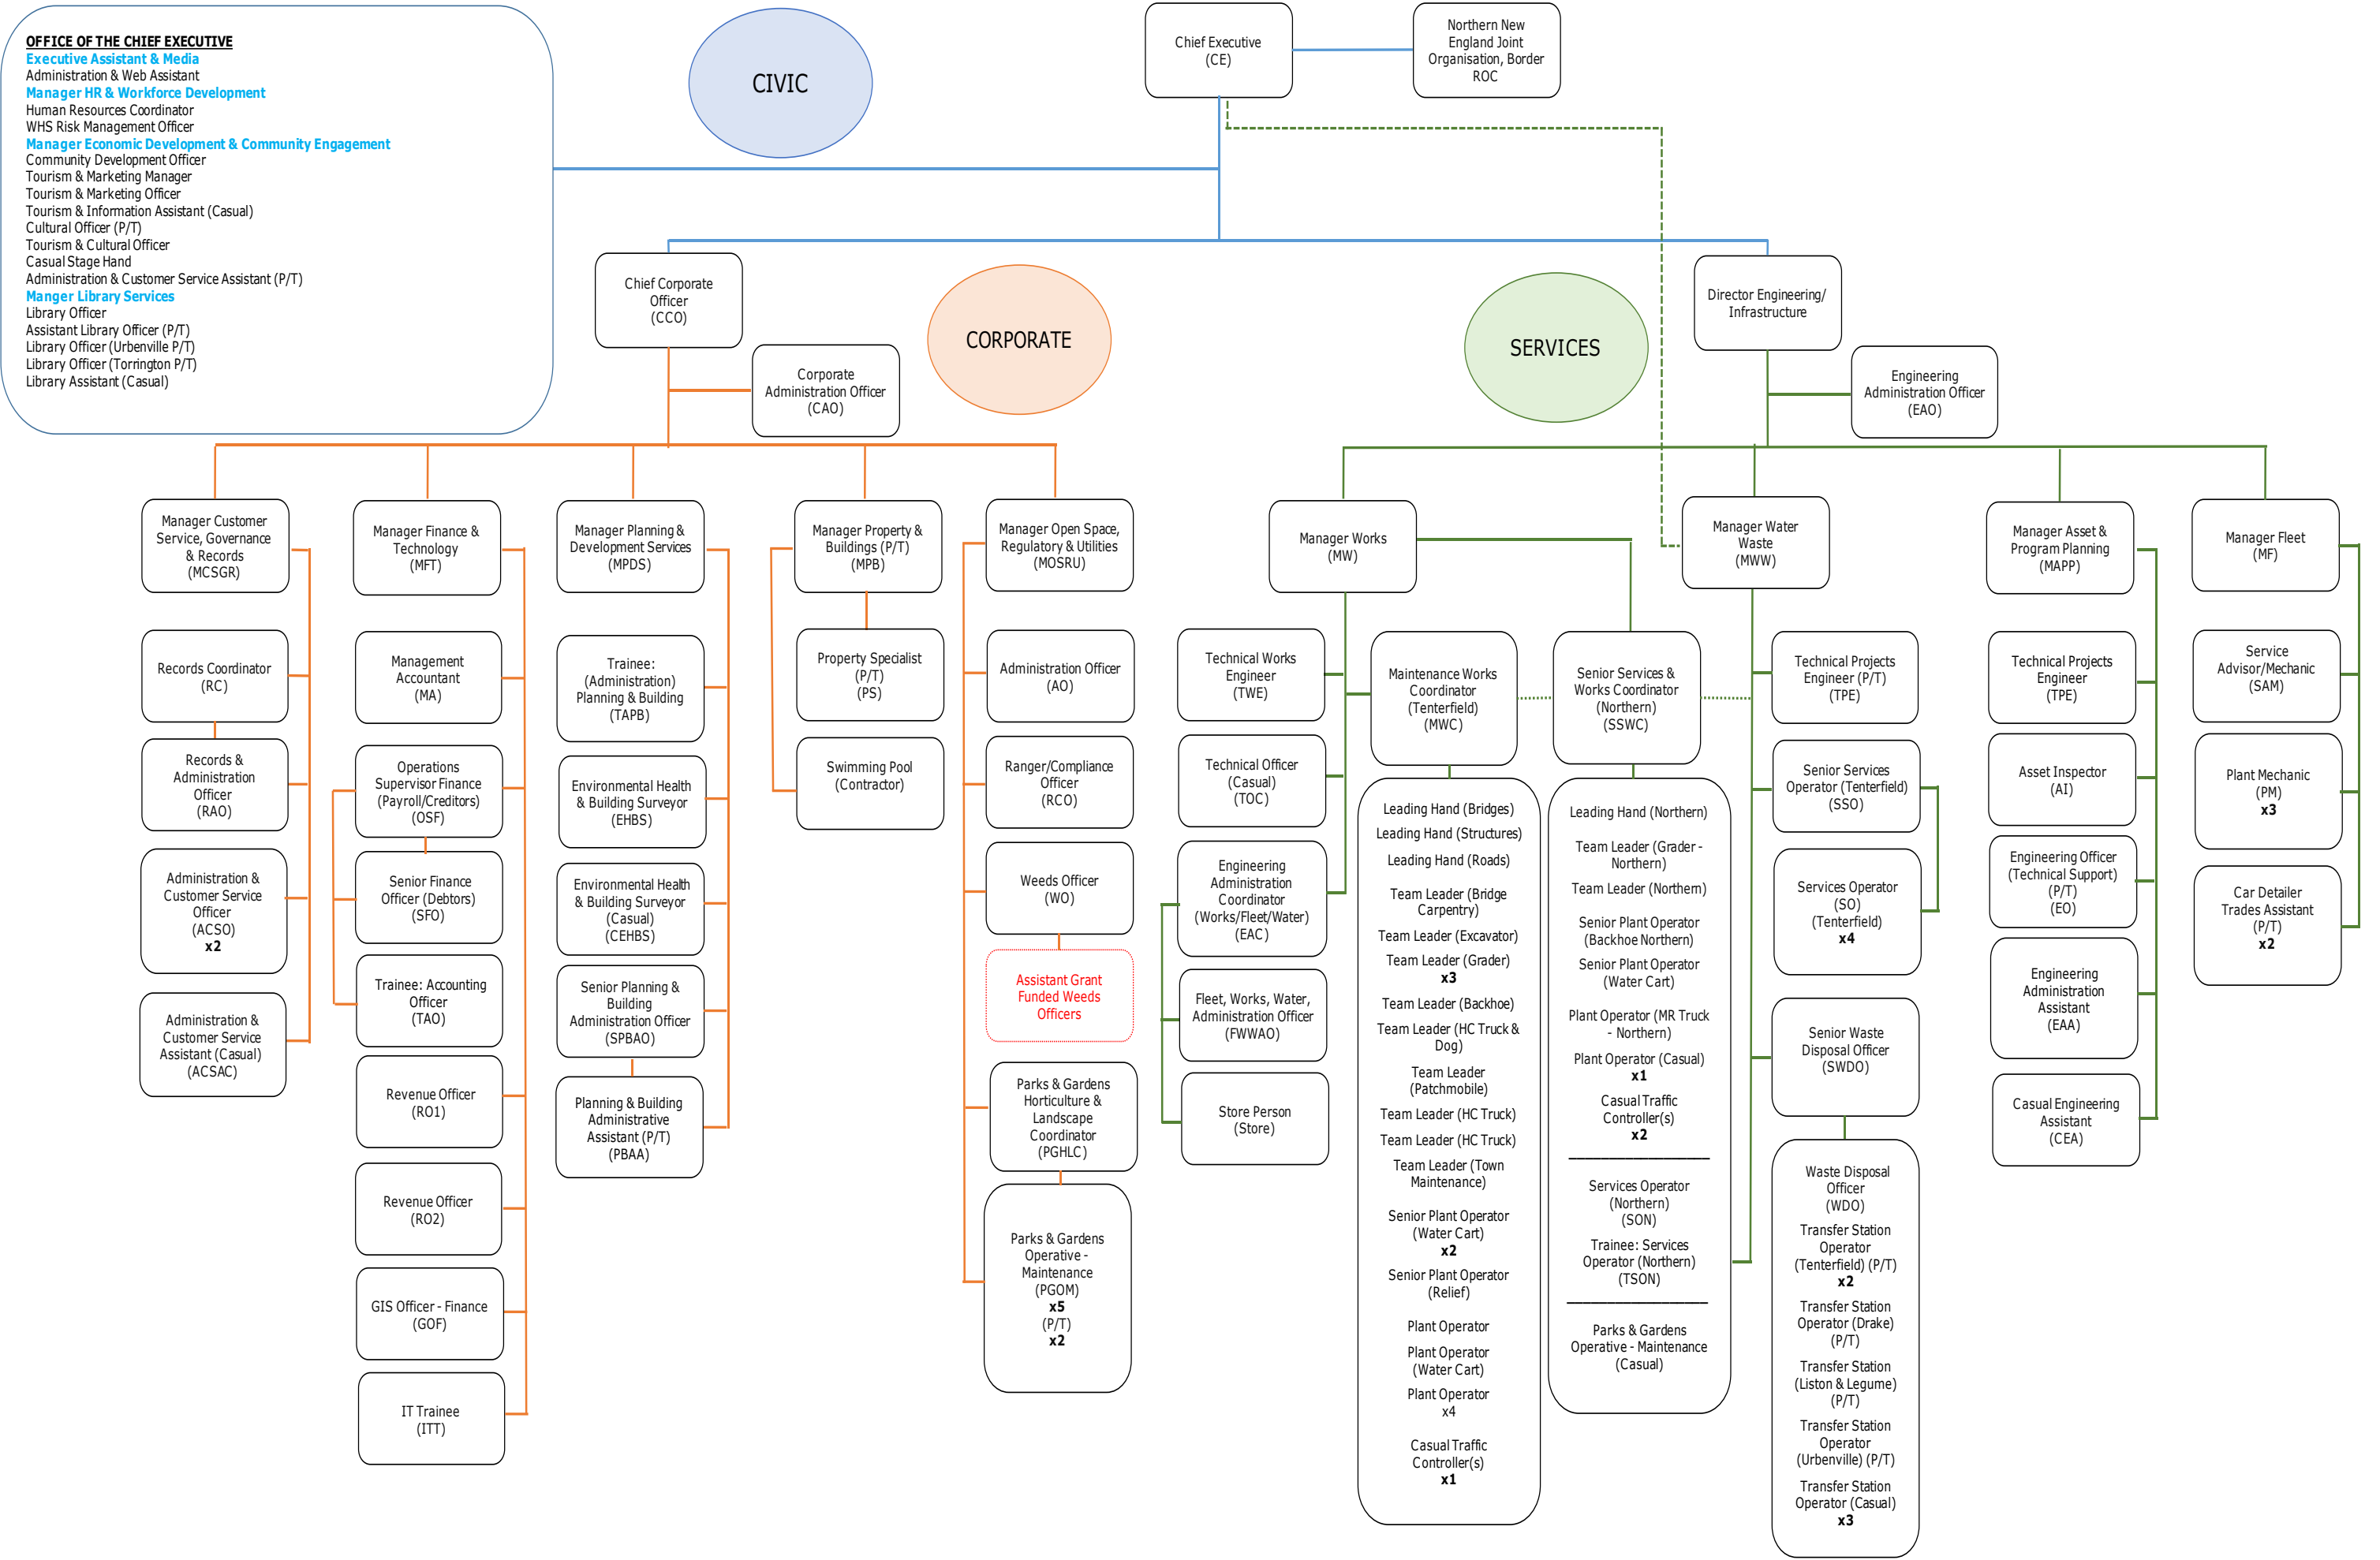

At an outcome level how we work together involves far more overlapping of effort than a traditional hierarchical structure indicates.

Some of our accountabilities contribute to the outcomes for the whole organisation.

Some of our accountabilities involve teamwork between two areas of responsibility.

Other areas of accountability sit solely within one directorate, but still receive internal services from other sections of the organisation. E.g. Finance & Technology

1. Civic Office

Under the 4 year Delivery Plan, the *Civic Office* relates to: corporate affairs and relations; the governance framework; overall corporate performance and reporting; community advocacy; mayoral, councillor and committee support; and media and external communications. The Office of the Chief Executive directly oversees the delivery of these outcomes.

As per Council Resolution there has been many representations over many weeks made to both Federal and State Government politicians. For many years, if not decades, there has been advocacy applied in an attempt to get a Detailed Business Case funded. When the Federal Government started using the term 'National Water Grid' Tenterfield Shire took the opportunity to advocate, not only for Mole River Dam, but for a pipe network east to Tenterfield as well as north to Stanthorpe and south towards Deepwater. On Sunday 13 October the Federal and State Governments announced \$24 million to go to the project. This money will be used to complete a Detailed Business Case to comply with Infrastructure Australia's P90 estimate criteria as per Council's resolution.</p> <p>https://www.tenterfieldstar.com.au/story/6440289/our-work-is-coming-to-fruit-mole-river-dam-a-step-closer-to-reality/</p> <p>On 16 October, 2019, the Mayor, Deputy Mayor and CE met with the Hon. 	Participate and influence the direction of Joint Organisations and ROCs, specifically, advocate that Joint Organisations remain focussed on delivering reductions in costs without eroding local community capacity .	B:CE C:CE			+1	(Also refer to June MOR). Currently liaising with SDRC regarding a joint Energy from Waste proposal. Contributed to NEJO's submission to the Committee on Investment, Industry and Regional Development's inquiry into support for drought affected communities in NSW. Working with NEJO on Regional Transport Plan, procurement opportunities and submission regards the new internal audit and risk requirements.
DP1.2) Provide sound and inclusive decisions using the Community Engagement Strategy to guide our interactions Governance framework strategy, management & development (including registers and monitoring): A – Chief Corporate Officer	Work towards the overall objectives of the Office of Local Government in relation to guiding the decisions of the community to align with the ratios as contained and described by the Local Government Act and the Office of Local Government. Collaboration between entities: State/Fed Gov, Joint Organisation, MOU's: A – Chief Executive	Advocate for the maintenance and improvement of our existing health services throughout the Region and ensure future government planning aligns with community needs.	B:CE C:CE D:EA&M			+1	Supporting local health providers within our mandate and community expectations at every opportunity. It's a very difficult situation, as the Health Service take every opportunity to reduce the provision of services in Tenterfield; the latest example being the reduction in nursing staff. Despite advocacy to the Cross Border Commissioner, Health and local political representatives we still face the same issue with NSW Ambulance overriding doctors and taking patients to where it suits. This is an on-going challenge. Mayor and Deputy Mayor chaired a meeting on 12 September, 2019, with the agenda being to support the nursing levels at the hospital. The Hospital's operations and services to our community remains a priority of council. The Mayor and Deputy Mayor have been advocating on behalf of the community when every chance is placed before council.

	Develop a strategy with the Border Regional Organisation of Councils to lobby the State government to reverse the decision to downgrade the western segment of the Bruxner Highway to Bruxner Way.	<i>B:CE C:CE D:EA&M</i>			+1	Currently engaging through BROOC, the Member for Lismore, and the NSW Government, regards the transfer of the Bruxner Way back to highway status. Council (Administration) wrote to the Hon. Janelle Saffin MP to provide her with commentary so questions as to progress could be asked of the State Government. The government has since responded.
	Continue to apply for grant funding and lobby other levels of government to commit the funding required to fully seal the Mount Lindesay Road as it is now classified as a regionally significant transport corridor in the New England North West Regional Plan. Alternatively, in parallel, advocate for road to be handed over to the State.	<i>B:CE C:CE D:EA&M</i>			+1	Council has been successful in obtaining 100% funding to replace the Boonoo Boonoo Bridge on Mt Lindesay Road. Tenders have been advertised for the design and construct bridge work. The Legume/Woodenbong intersection has been completed. A submission has been made for funding under the NSW Road Safety Program to place a new seal over the first unsealed road section of Mt Lindesay Rd near Bookookoorara. As part of the Federal Government's second-round of drought funding, our Roads to Recovery (R2R) grant has been raised circa \$1.05 million over two years. Mt Lindesay will receive the majority of these funds.
DP1.6) Mayor, Councillor and Committee support <i>Mayoral, councillor and committee support: A – Chief Executive</i>	Continue to develop the professional relationship between Council's elected body and Council's operational organisation.	<i>B:CE C:CE D:EA&M</i>			+1	Ongoing.

There is still work required, but the quantum has been very significantly reduced. We've largely got timber bridges now in control, we've been granted two lots of money for the water (7 million for WFP and 4 million for the Emergency Water Augmentation Project). We are still struggling with waste management, as in short, our charges haven't taken into consideration the need to spend \$4.1 million on a new waste cell. SWOT ANALYSIS

Chief Executive – **(CE)**

S

Strengths

- The organisation accepts that to remain relevant, sustainable and to thrive, there needs to be constant improvements;
- The Council rigorously debates the subject matter and not the person;
- Councillors are open to new ideas and are interested in different solutions;
- There is an exceptionally strong community spirit;
- There is an attitude of ‘how can we’, versus ‘why should we’;
- There are a great many people within and outside of the organisation wanting to help advance the Shire;
- Negativity is very low;
- Those staff with experience make an effort to coach the new staff, who are keen to learn;
- There is a sense of fun and achievement.

O

Opportunities

- The components of the jig-saw puzzle are here, once the alignment of accountabilities is complete and known by all, the improvement in delivery will be profound;
- The Shire is compellingly beautiful and diverse, with 2.2 million people living less than 3 ½ hours’ drive away the potential for economic growth is quite significant;
- The size of the organisation allows for excellent comradery which, if harvested, will create an even better team atmosphere and outcomes;
- We have great street scapes, parks and gardens of which will be easy to build on;
- The northern part of our Shire’s tourism and horticultural potential is virtually untapped.

W

Weaknesses

- We need to find equitable ways to underpin the enhancement of own source revenues;
- The management of our 58 timber bridges, the waste function, and the Tenterfield water filtration plant will require the re-setting of the 10 Year Financial Plan and therefore a review of the fees and charges. The weakness isn’t in the fact that this needs doing, it’s whether in the short-term the assets can be sustained and funds raised;
- Grant funding success is hit and miss;
- Economic seepage across the border.

T

Threats

- Cost shifting by State Government;
- Over officious application of regulation by government bureaucracies;
- Own source income stream stagnating;
- Losing our volunteer base would severely affect our services;
- Our 58 timber bridges, the waste cell and the Tenterfield water filtration plant are nearing the time that upgrades, major maintenance or replacement is required. Completion of timely Strategic Business Reviews and the capacity to raise income to fund is crucial;
- Staff have been through much change, and turn-over has been high. This needs to abate to let a pattern of management normality become embedded, thus ensuring staff can concentrate on outputs rather than change management processes and self-preservation.

e) Customers

Council staff have been concentrating on management of fire affected customers.

d) Emerging Issues, Risks and Opportunities

The ongoing drought, fires and water shortage, and the attention this has received in the media, has had a significant impact on the tourism and business industry. Despite this, feedback from the majority of businesses remains positive, with many acknowledging that despite it being a tough year, they are doing ok.

Closures to National Parks (including Bald Rock and now Torrington State Recreation Area), the ongoing fire threat and ongoing drought is hampering any recovery marketing campaigns. A summer campaign focusing on local food, cafes, restaurants and shopping to be launched late November/early December to encourage visitors to Tenterfield over the summer period.

e) The Business of Improving the Business

Economic Development, Tourism, Community and Cultural team continues to work collaboratively to improve outcomes for the community.

The commencement of two new staff members within the tourism and cultural team will enable other staff to focus on more strategic projects and will ensure the Tenterfield tourism & cultural industries continue to grow and build on the momentum we are already seeing.

f) Customers

Positive reviews continue to be received on Google and TripAdvisor for the Visitor Information Centre and Tenterfield.

Customer service requests continue to be responded to in a timely manner.

Stock sold through VIC (total)	\$1,985.89	-40.4%	*Have been slowly reducing stock for sale in the visitor centre. There has also been reduction in visitors coming to the centre.

h) Special events, achievements of note, celebrations

The Today Show visited Tenterfield as part of a national drought tour, and did 7 live weather crosses from Bruxner Park on the morning of Wednesday 23rd October. The announcement was made through the Live Weather Crosses that Tenterfield found water and is open for business. The event was well supported by the community and community groups, including the Rotary Club of Tenterfield, Oracles of the Bush, CWA, Make it Tenterfield as well as local school children.

The Tourism & Marketing Manager & Tourism & Marketing Manager attended the Australian Regional Tourism Convention in Devonport during October. Speakers included Senator the Hon Jonathon Duniam, Tasmanian Premier Will Dogman, Nigel Collin, Austrade, Tourism Tasmania, Australian Chamber, Tourism Australia, Ultimate Winery Experiences Program, Sparrowly Group, Australian Tourism Industry Council, Victorian Tourism Industry Council, Tourism Western Australia, Visit Victoria, Tourism e-School, Destination NSW, Business Events Tasmania, Business Events Victoria, City of Albany, Accommodation Association of Australia, STR, Cradle Mountain Canyons, Destination Southern Highlands, The Outdooria Group, Australia’s Coral

Coast and Tourism Greater Geelong and the Bellarine. It was interesting to note that nationally tourism is seeing strong growth of 5% (exports are the only other industry to see significant growth). This growth is expected to continue, which will mean it is vital to significantly increase skilled staff in the hospitality and tourism industries to maintain and increase service standards. Key themes which emerged from the conference include a focus on regional dispersal; sustainability and responsible tourism; connections with place, community and experiences; the importance of collaboration; and the need for the industry to keep up with infrastructure and staffing.

Increased funding from NSW State Library will see Tenterfield Library Service \$46,076 better off in the 2019/2020 financial year.

Operational Expense: On budget.

Capital Projects

Local Priority Grant funding for 2018/2019 is allocated to refurbishment of Urbenville Branch Library which has now been completed.

Local priority Grant funding for 2019/2020 is allocated to upgrading technology and purchasing new computer chairs for the public computers.

Emerging Issues, Risks and Opportunities

- Drought and fire disasters have negatively affected visitation and borrowing at the Library.
- Library ceiling work - date yet to be decided, the builder hopes not to have to close the library (for a day or two) to complete the work.

The Business of Improving the Business

- Council employees have undertaken work to repair and update the Urbenville branch library.
- Replacement public computer chairs have been ordered.
- Annual State Library statistics completed and submitted.
- Australian Libraries and homeless patrons webinar participated in. Explanations for behaviours and, techniques to apply in situations that could arise were given. These are suitable for use with any challenging customers.

The \$10,000 allocated for the Workforce, Planning and Evaluation or related Software (Pulse) was scheduled to be purchased in the last quarter of the Financial Year/ provider availability has presented some difficulty in finalisation. Provider has signaled availability and has quoted –some supplementary funding may be required.

Operational Income:

Operating income from subsidies and incentives continues on track and trends indicate stronger above budget achievement. Receipts reflected at this stage of the Financial Year. A number of training expenses have also been externally funded and therefore do not show directly as income. Over \$100,000 of externally supplied training has been funded without cost to Council, other than the wages of those attending essentially mandatory, regulatory or compliance training and development. We are considered a major Council consumer of available funding.

Operational Expense:

Expenditure on training, including travel, committed and incurred. Expenditure while below budget overall it is forecast to match budget within the financial year. Overall expenditure anticipated to be on budget.

Emerging Issues, Risks and Opportunities

Risks – Councils provision of plant machinery and manpower to assist the RFS firefighting activities posed a number of risks to Council and its staff that are not normally present in day to day activities. Training to compensate was completed and plans have been updated to reflect learning. Managers and Supervisors with the assistance of the WHS Risk Management ensured Councils Risk Management and Enterprise Risk Management Principles policies and procedures were implemented, monitored and reviewed. Appropriate control measures were enacted to ensure the safety of staff, protection of assets and the environment. Fatigue management has been reviewed due to the current bush fire situation and great improvements have been made in this area.

c)The Business of Improving the Business

Funded Supervisory training for their Managers and Supervisors continues. Follow up training is being provided. Extensive required safety training supplied in areas such as forklift, chainsaw, first aid, regulatory requirements and Chemcert. Recent staff appointments are supporting business improvement.

SWOT ANALYSIS

Human Resources and Workforce Development – **(MHRWD)**

S

Strengths

- Workforce Management Strategy approved and in place with strategies being progressively implemented, including training with external and internal funding and budget capability support;
- Availability of internal metrics and external comparative data to aid decision making;
- Current staff capabilities, quantity of well-defined procedures, knowledge of workforce and their needs to facilitate planning;
- Sound payroll data and system operations, stable industrial relations.

W

Weaknesses

- Cumbersome nature of some processes including job evaluation and performance appraisal, that need automation support;
- Periodic difficulty in obtaining performance against budget data;
- Prior handling of the Change process;
- Inconsistent identification of training needs for some staff by responsible supervisors, need for some managers to improve management techniques.

O

Opportunities

- Improve management of the Change process and enhance communication; Complete staff surveys
- Republish/establish approved Organisation Structure, develop the Organisation; Establish Succession Planning for key positions
- Complete reviews of and changes to the Performance Appraisal, Position Descriptions and Salary Evaluation Systems. Complete training programs including Councillor training;
- Update selected HR Policies, become an Employer of Choice;
- Effectively re-establish the Consultative Committee.

T

Threats

- Failure to address some inefficiencies related to particular staff duties;
- Overlook particular priority training needs, which impair performance;
- Technology change unavailable or not capable or provision;
- If inappropriate selection decisions are made;
- Poor application of management skills and missed opportunities for mentoring;
- Incomplete Succession Planning
- Reduction in available funding.

SWOT ANALYSIS

WHS and Risk Management – **(MHRWD)**

S

Strengths

- Well defined WHS strategies, actions, programs and commitment to safety;
- Benchmarked performance, target achievement;
- Defined Risk Management strategies;
- Good staff attitude and commitment to WHS and Risk;

Emerging Issues and Risks

The requirement for Councils to implement A New Risk Management and Internal Control Framework will, if kept in the present draft form which is open for feedback until the end of December 2019, cause additional financial impost to Council from both additional staffing and other resource requirements which effectively will force smaller Councils like Tenterfield towards a Joint Organisation approach which will incorporate another layer of administration and cost.

The outcome of the Review of Rating Final Report may have implications for Council as to how rates are calculated; the types of exemptions that can be given; disclosure requirements around exemptions and other matters raised in the Review.

The financial risks associated with the drought include the cost of invested funds to resolve the issues. While there is some grant funding that can be put towards these costs, at least 25% will need to be found by Council and it has not been a cheap exercise so far. This will no doubt be a topic of discussion in the first Quarterly Budget Review.

The Business of Improving the Business

There has been a strong focus on improving the IT Infrastructure across Council and mention was made of the Saleyards and Depot, but all sites connected back to the Administration building will see an improvement in speed once work is completed in this area.

The introduction of NBN for the Public Wifi in the main street and Public access computers in the Library, will not only improve IT System security for Council but enhance the users experience.

Similarly, Council is looking to introduce NBN for use at the Urbenville Water Treatment Plant to give greater connectivity and faster internet speeds.

In terms of the finance and accounting aspect of the team, work continues on improving Council’s chart of accounts structure to ensure more meaningful reports can be provided to managers.

Mapping is an area of renewed interest by staff across the Council and the demand upon Council’s GIS officer’s time will only get heavier as more spatial data is required.

SWOT ANALYSIS

Finance & Technology – **(MFT)**

S

Strengths

- Integrated Finance System;
- Proven ability to secure grant funding;
- Established processes.

W

Weaknesses

- Some staff development needs;
- Some processes are developed to address gaps and do not represent good practice;
- Lack of high level Information and Communication Technology (ICT) Strategy in place;
- Restrictions in the flexibility and cost of adjustments to the Financial System;
- Fund based business operations have insufficient funds for expected long term needs.

O

Opportunities

- Development of Management Accounting to assist understanding of our financial practice by staff and Elected Members;
- Increase understanding/take up of available grants by all business areas;
- Refine the Long Term Financial Plan (LTFP) and Asset Management System (AMS) and integration;
- Refinement of the Staff Structure in finance to ensure management and statutory accounting needs are improved;
- Greater interface between Finance team and staff for corporate solutions.

T

Threats

- Continued movement, increased demand/management and risks in the ICT space;
- Grant funding becomes scarce, not aligned with Council needs and more costly to apply;
- Lack of planning and forward business planning for both Finance and ICT functions.

Customers

Finance services a range of customers both external and internal to Council and we aim to provide a high level of customer service. Finance staff have assisted other sections of Council with budget information and grant acquittals/returns.

SWOT ANALYSIS

Governance – **(MCSGR)**

S

Strengths

- Statutory deadlines for reporting are being met.
- Records Management is delivering against the operational plan accountabilities.
- Customer Service statistics and trends are being reported.
- Centralised Customer Service complaints management and response.

W

Weaknesses

- Reliance on part time and casual positions in customer service and administration supporting customer service and civic office.
- Task shifting from other accountabilities risks key priorities and deadlines in Corporate & Governance not being met.
- Simple customer complaints not always being addressed in a timely manner; these become complex complaints with a commensurate level of resources required to resolve a matter that could have been solved at the first instant.
- Cash handling practises across the organisation are not consistent.
- Cash management within organisation needs to be modernised (refunds can take weeks, if not months, to be processed).

O

Opportunities

- Provide training on cash handling and management practises.
- Provide training on rates.
- Provide training on planning & regulation.
- Provide training to managers on handling difficult customers.

T

Threats

- Deadlines for customer response not met.
- Customers broadcasting negative experiences to the community.
- Loss of Corporate and public reputation through inconsistent messaging to customers and stakeholders.

SWOT ANALYSIS

Environment, Buildings and Amenities – **(PBLC)**

S

Strengths

- Established asset base (Buildings and Amenities);
- Procedures for hire and reasonable fees;
- Knowledge base, intellectual property;
- Planned maintenance and renewal assessed, good condition of assets;
- Village “community ownership” and volunteering;
- Availability and accessibility to the public meets demand, growth available.

W

Weaknesses

- Cost of out of hours maintenance to sustain availability;
- Some aging building assets with increasing maintenance costs;
- Limits on funding and reserves for service levels and new acquisitions;
- Shortage of showering facilities;
- Reliance on volunteers;
- Shortfall in maintenance personnel, need for Contractors.

O

Opportunities

Emerging Issues, Risks and Opportunities Risk

- Very large number of cattle in the area are being sold on Auction Plus.
- Some cattle are being sent direct to feedlots or meatworks or other selling centres. These factors are having a major impact on the Saleyards viability.
- Installation of the truck wash may increase income and possible throughput however will add to the expenditure. and depreciation
- Further increase in cost for non-sale cattle usage at the yards.
- Decrease in the throughput of cattle due to drought conditions.
- Less buyers are attending due to low numbers.
- Limited amount of water being used. Troughs are filled and the water is then turned off.

a)The Business of Improving the Business

- Further improvements to the removal of rocks and the gravelling of both selling and holding pens will increase throughput and less stress on cattle.
- Presenting the Saleyards to the public in a positive manner, presenting a well maintained facility.
- Confidence in the management of the Livestock Selling Centre.
- Bio-security and Emergency Disease response plans adopted by Council.

SWOT ANALYSIS

Asset Management & Project Planning - **(MAPP)**

S

Strengths

- Good data on road related infrastructure;
- New and more proactive Management Team prepared to innovate;
- Knowledgeable workforce.

W

Weaknesses

- GIS system lacks consistency, coordination, full population, use, integration with asset management and a consolidated viewing platform e.g. IntraMaps;
- Records/drawings management – need to transfer to electronic format – awkward server spread of data and inconsistent file management;
- Lack of specific GIS Technical Officer – No internal design or CAD services;
- Past reliance on external resources for asset delivery not always a cost effective value.

O

Opportunities

- Appoint a GIS Officer or Technical Officer;
- Move to use QGIS, IntraMaps for mapping;
- Improve organisational efficiency through integrated Assets and GIS data work stations;
- Develop affordable levels of service for Council assets;
- Maintain assets to a defined level of service, and prioritise expenditure;
- Educate/influence the community on affordability;
- Optimise water and sewer assets;
- Make Tenterfield attractive economically.

T

Threats

- Failure to achieve target service levels and community dissatisfaction;
- Availability of sufficient funds to manage assets, reduced grant funding access;
- Possible Government Policy and Legislation change;
- Infrastructure demands exceed capacity to supply;
- Shortage of appropriate Technical staff.

20. Transport Network

Under the 4 year Delivery Plan *Transport Network* relates to the sustainable management and improvement of all infrastructure used to facilitate transportation: vehicular, aviation, Mt McKenzie and cyclists; car parking; quarries; delineation, line marking, signage and lighting; regulatory compliance; emergency response and on-call; traffic committee administration; and risk mitigation. The Office of the Chief Operating Officer directly oversees the outcomes.

a) Delivery and Operational Plan precis

4 Year Delivery Program	1 Year Operational Plan 19/20	Officer	-1	0	+1	Comments: (Business Manager to provide short precis.)
DP20.01) Construction of Transport Infrastructure. Roads, bridges and retaining walls: A - Chief Operating Officer	Continue to apply for grants to complete sealing of unsealed sections of Mount Lindesay Road.	B:MAPP C:TPE	-1			Funding needs to be sought for this work, grant opportunities that may be coming available are being considered for initial sections of work.
	Reconstruct and realign Mt Lindesay Road from Legume to Woodenbong. Under the direction of the Chief Operating Officer.	B:MAPP C:TPE			+1	2.4km at Dalman North is complete. Construction of the intersection at Legume and Killarney Road is complete. The delivery of remaining stages is being discussed with RMS.
	Deliver the timber bridge replacement program.	B:MAPP C:MW D:MW			+1	Emu Creek on Hootons Rd, Beaury Creek on Tooloom Rd and Boonoo Boonoo River bridge on Mt Lindesay Rd have design and construct tenders that have closed. Tenders are being assessed and a report will be prepared for Council.
	Implement the resealing program for the Regional and Local sealed road network. Allow a suitable budget that falls in line with depreciation of the sealed network.	B:MAPP C:MW D:MW			+1	19/20 program will be called for tenders towards the end of 2019.
	Complete yearly renewal (replacement) of drainage assets as identified from condition ratings from inspections.	B:MAPP C:MW D:MW		0		19/20 FY has funding towards drainage assets. Some culverts have been identified for replacement and materials have been purchased ready for installation. Some replacements have been completed on Binghi Rd and Log Hut Rd.
DP20.02) Maintenance of transport infrastructure. Roads, bridges and retaining walls: A - Chief Operating Officer	Review practices every six months – measure by road maintenance longevity. Difficult to measure with abnormal conditions.	B:MAPP C:MW D:MW			+1	Ongoing with crews and the Asset Manager.
	Continue works as per the bridge replacement and repair program as per grant funding for 19/20 & 20/21.	B:MAPP C:MW D:MW			+1	Program set, continually reviewed and maintenance works occurring. Some bridges are complete under Interim Solutions Funding and further work is ongoing. Bridge superstructure components are being fabricated within the depot for expediency and will be transported to site for installation such as Silent Grove Rd once safe conditions prevail.
	Ongoing maintenance of road network and cleaning of streets and car parks.	B:MAPP C:MW D:MW			+1	Street sweeping contract in place, road network program set and implemented.

	Maintain Council's footpath network in accordance with the Asset Management Plan.	B:MAPP C:MW D:MW			+1	Footpaths maintained as budget funds allow.
DP20.03) Advocate on behalf of the community for improved service levels across the Shires transport network. Collaboration between entities: State/Fed Gov, Joint Organisation, MOU's: A – Chief Executive	Lobby State and Federal Governments for funding to reconstruct and realign Bruxner Way from the New England Highway to Sunnyside Loop Road.	B:CE C:CE		0		Commenced. BROC task force initiated. BROC strategy meeting held 10 August. Agenda is to collate all the information available and complete a gap analysis prior to engaging a consultant to complete an independent business case and review of the original determination by RMS. Now that the inland rail project has commenced there will be a need to review past, out-of-date, strategies.
	Lobby State and Federal Governments for funding to reconstruct Tooloom Road.	B:CE C:CE	-1			Not commenced. Advocacy efforts being spent on timber bridge replacements and other roads (Bruxner Way). At the present, requesting the State to financially support Tooloom Road will send the wrong signals to decision makers. The most looming issue in the immediate time is maintaining the integrity of our timber bridge fleet. The risk being that decision makers may then misunderstand the level of importance of funding bridges, as the Tooloom Road business case simply won't be as robust.
DP20.04) Management of the transport infrastructure assets in response to changing community need. Road safety and Traffic Committee: A – Chief Operating Officer Quarries and stockpiling: A – Chief Operating Officer Aviation: A – Chief Operating Officer Roads, bridges and retaining walls: A – Chief Operating Officer	Review and implement the Road Network Management Plan and the Road Network Asset Management Plan.	B:MAPP C:MAPP		0		Both plans to be reviewed by June 2021. Existing plans are in place and implemented.
	Ongoing management of quarries, borrow pits and stockpiles. Meet Mining documentation requirements.	B:MW C:MW D:MW		0		Some gravel pits are registered. Other pits are used under Section 94 of the State Environmental Planning Policy (Infrastructure) 2007.
	Ongoing management of airstrip, in conjunction with the Asset Manager.	B:MAPP C:MW D:MW			+1	Airstrip maintained regularly and available for use.
	Management of road safety and the Traffic Committee.	B:MAPP C:MAPP D:MW			+1	Road safety issues are being addressed through the Local Traffic Committee – ongoing.
	Review operational strategy regards grading delivery models involving contracting services in partnership or parallel with current internal service delivery.	B: MW			+1	Grading practices to be reviewed as part of the review of Road Network Management Plan.

d) Emerging Issues, Risks and Opportunities

- The Regional Road Block grant allocation supplies 'just' enough money to maintain the running surface asset but the allocations do not allow for asset replacement. The Regional Roads have a higher 'level of service' asset installed when built by the State Government. Into the future, we need to source funding for these asset replacements that we have inherited.
- We are at risk of not able to maintain our unsealed network to community expectations due to the ongoing dry weather and lack of water for grading.
- The dry times and fire outbreaks are require Council resources which delays our normal operational activities and Capital works.

e) The Business of Improving the Business

- Three bridge replacement grant opportunities have been successful as well as two bridges that have half the funding made available. This combined with the interim solutions funding for the remaining timber bridges provides Council the opportunity to replace and extend the life of our bridge assets.
- Council continues to seek funding under different streams to seal the unsealed sections on Mt Lindesay; rehabilitate Tooloom Rd and Torrington Rd.
- Council continues to review grading practices and trialling new innovative ways to extend the life of our unsealed network.
- Council continues to lobby the State government to increase the Regional Road Block Grant funding for normal routine maintenance and asset replacement.
- Council has Black Spot funding application in for Boonoo Boonoo Falls Road, for crash reduction treatment; To seal Mt Lindesay Rd on the gravel section Tenterfield side of Bookookoorara Ck.

SWOT ANALYSIS

Works (Transport & Infrastructure) – **(MW)**

S

Strengths

- Reasonable data and records;
- Modern Plant and Equipment;
- Good maintenance and customer service responses;
- Road Network/Asset Management Plan;
- Interdepartmental communication;
- Multi skilled, local workforce with good area knowledge.

W

Weaknesses

- Shortfalls in Construction skillsets, design/technical staff, and succession planning;
- Reactive rather than proactive;
- Reliance on Grant funding;
- Area to be covered and high resource need, with large infrastructure base;
- Limited planning, design, project and asset management resourcing until recently;
- Access to good road base;
- Poor network coverage.

O

Opportunities

- Obtain more Grant income;
- Improve systems and processes;
- Access more private works;
- Increase staff and resources;
- Increase use of technology – mobile asset management systems;
- Innovation in road building, bridge construction and maintenance overall;
- All staff at Depot part of same engineering team.

T

Threats

- State and Federal cost shifting;
- Acquiring new assets without corresponding resources;
- Climate change;
- Less annual funding;
- Increase in service levels without resources, shifts in priorities that are unplanned.

c) Capital Projects

Capital renewals are prescribed in the Plant Replacement Program in line with councils 10 Year Fleet Asset Management Plan, delivery of some items have extended into the 19/20 financial year and include:

- Unit 10 Bridge Truck. Cab chassis to be purchased through LG Procurement under government contract ongoing,
- Unit 68 Grader, this procurement will carry to next financial year, delayed awaiting the outcome of a Caterpillar warranty issue that may impact the purchase decision,
- Unit 17 Watercart, tender delayed to incorporate the procurement of unit 11 Watercart scheduled for next financial year to halve administration and advertising costs,
- Unit 99 Mini Excavator 5.5T ((delay requested by works manager),

Items prescribed in the 2019/20 Plant Replacement program are as follows:

- Unit 11 Watercart,
- Unit 343 Slasher,
- Unit 98 Micro Excavator 1.8T, quotations received and currently being assessed. Probable addition of a second machine which will be based in Urbenville
- Unit 24 Front Loading Garbage Compactor,
- Unit 109 Landfill Compactor, a second hand Caterpillar 836H is being investigated in Wollongong. The Fleet manager will inspect the asset the week of 25th November in Wollongong.
- Unit 289 Tommy Vac leaf vacuum.

Operational Income:

Recovered through plant charges, fleet income is indicating a .50% surplus for the October, with two weeks of data yet to be processed.

Operational Expense:

Fleet operational expenditure was 23.14% over expended for October, with the current harsh environmental conditions and fire containment efforts placing extreme demands on council's fleet assets.

d) Emerging Issues, Risks and Opportunities

Considerable resources were applied to assisting the RFS again in October with fighting multiple fires during the month. These efforts have placed additional maintenance and repair requirements on council's fleet, further impacting the Fleet operational budget. Damage to glass work and tyre punctures on council's graders being the primary addition to operational expenditure throughout the fire efforts.

Council's Heavy Fleet was inspected by Roads and Maritime investigators as part of the Fleet annual registration renewal, all assets went straight through bar one which had a small fault which was rectified on the day. This result is testament to the fleet health and the hard work on the floor of the council's Fleet team. It gave me great pride when the investigators congratulated council on the condition of the fleet and made mention of the pleasurable experience inspecting council's assets was. A great accolade considering these inspectors inspect many thousands of Heavy Vehicles yearly and have a good understanding of the national condition of fleet assets.

e) The Business of Improving the Business

Fleet identified the need to re-arrange the office space within the workshop to better allow access and egress, and facilitate a suitable workspace for team members conducting computer based tasks. The renovation took just two weeks in total and has made a clear improvement to workflow and practical use of the space. The customer service experience was further enhanced by the addition of two service counters, and the positioning of the Fleet administration assistant as a primary focal point upon entry to the workshop.

A tablet based visitor and staff login has also been implemented to allow for better site management and visitor control. The cloud based visitor login application affords detailed reporting, trend and event management, along with providing a means of maintaining a site attendance register which is essential in the event of an emergency evacuation.

f) Customers

Support to all internal customers is ongoing, including mechanical and technical assistance, and provision of fleet assets through a system of internal hire.

Again throughout the month of October significant mechanical and logistical support was provided to the Rural Fire Service and other combat agencies, as part of the combined fire effort.

Further support was afforded to the Water and Sewage team to rectify the underperforming infrastructure at the APEX park bore. The original design called for a water delivery system capable of delivering approximately 5,000 litres per day of stock water to the community. It soon become apparent that the demand was far greater than the scope of the system, with usage of up to ten times its designed capacity being experienced frequently. The Fleet team has re-designed the solar array which powers the delivery of water from the holding tank, increasing its capacity 400%. Installation of this new array will be completed by mid-November affording the community reliable service from this high demand free council service.

g) Business Statistics

33 Vehicle maintenance orders conducted in October
Ratio 2:1, Target >3:1.)

Fleet utilisation is indicating a 0.50% surplus for October.

The plant expense budget was 23.14% over budget for October.

h) Special events, achievements of note, celebrations

Two fleet team members attended a one-day IPWEA (Institute of Public Works Australasia) Fleet development workshop held in Casino, seven council Fleet departments were in attendance, Kyogle, Richmond Valley, Inverell, Lismore, Byron, Tenterfield and Clarence Valley. Topics of discussion were, CoR (Chain of Responsibility), the importance of sound Fleet asset management plans, lease vs purchase and the impacts of drought and fire on community and council resources. This was also a fantastic opportunity to network and hold discussions with adjoining council fleet managers and develop professional relationships. The group will look to work collaboratively into the future with the possibility of resource sharing to better serve the upper NSW border region and its communities.

Operational Income:

New financial year; budgets in line.

Operational Expense:

New financial year; expense budgets on track, some expenditure for Tenterfield WTS asset maintenance. Works for initial preparation completed for asbestos clean-up, potential for additional clean-up for September to October and new November fires. Steel pick-up was arranged with contractor Infrabuild and is scheduled for November (13 homes identified).

Capital Income:

Small increases in income, expected to even out through the year.

Capital Projects

New financial year; capital expenditure is progressing as expected with continued deployment of the hungry bins.

C. Emerging Issues, Risks and Opportunities

Compactor repairs completed efforts by fleet to secure hire/purchase are ongoing. Council's bulldozer was utilised at Boonoo Boonoo to prepare old cell for asbestos from February fires 2019. Due to the fires in September Boonoo Boonoo site handover was delayed by 4 weeks with Public works asbestos contractors officially assuming site responsibilities on the 30/9/2019. Delays from new fires increased timeframe for completion expected November. Torrington Landfill was burnt in the latest November fires (Figure 1), a media has been issued to alert the residents of the area.

Figure 1 Torrington Fire November 2019

Temporary stock piling at the former landfill at Jennings has commenced, with EPA inspections occurring 2/10/2019 and favourable comments received. A new glass shield was installed the Tenterfield Waste transfer station (Figure 2).

Figure 2 Glass Shield 2019

Torrington landfill has been tidied at the end of July 2019; EPA inspection for utilisation when public works dispose of asbestos from Tabulam/Drake fires occurred 8 August 2019. EPA direction not to utilise Torrington for waste site.

Note: two successful grants for Boonoo Boonoo (improvements grant) and Torrington (conversion to Waste Transfer Station) **have been received and accepted confirmation confirmed.**

Boonoo Boonoo wind speed and direction stations purchased and installed working to capacity.

D. The Business of Improving the Business

Mega-muncher education pack completed and continued to be released this month, with continuing onsite visits.

Boonoo Boonoo Site Office works commenced with DA conformation and site preparation.

Bryant's Gap collection is progressing with information and expression letters completed **report to council is expected this month.**

New recycling collection for x-rays installed at Tenterfield WTS.

E. Customers

Our customer base is the public, other Council departments and contractors. Our waste operational staff continue to assist the community with waste.

The Mt Lindsay survey to seek residential ratepayer's assessment of the service was reported to Council in July 2019 with the service to continue.

F. Business Statistics

Tenterfield has recycled over 3,237,000 containers through the Container Deposit Reverse Vending Machine, averaging 6,000 to 7,000 containers recycled per day.

G. Special events, achievements of note,

Staff have attended and successfully completed a 2-day EPA Waste and Resource Recovery Facilities – Intermediate training course.

Retirement of Drake Landfill Operator Ray Boorn with presentation of mega-muncher to aid him with his gardening.

SWOT ANALYSIS

Waste Services – (MWW)

S

Strengths

- Few Customer complaints;
- 20 Year engineered Landfill at Boonoo Boonoo;
- Modern Waste Transfer Stations;
- Staff competence, dedication and support of change and management experience;
- Multiskilling and succession planning;
- Support from Northern Inland Regional Waste (NIRW);
- While the ability for delivery of strategic goals and team meetings/action due to remoteness, scheduled after hours meetings have provided successful integration of actions and innovation.

W

Weaknesses

- Limited financial resources and ability to raise revenue;
- Staff shortage/establishment limits.
- Public perception of waste management as a low value function.

O

Opportunities

- Leadership and best practice in all aspects of waste management;
- Development of new and better use of Existing markets for resale/reuse;
- Increase community education;
- Negotiate an MOU (Memorandum of Understanding) interstate (QLD) to reduce transport costs;
- Reduce waste to landfill through combined food organics + garden organics;
- Investigate construction of a Materials Recovery Facility/Waste to Energy;
- Alternate collection of recyclables;
- Seek grant opportunities for green waste.

T

Threats

- High and increasing costs of domestic waste management;
- Reliance on costly road transportation for collection and disposal, distance to markets;
- Accelerated consumption of landfill assets through climate change, natural disasters etc.;
- Time/cost to establish a new Cell;
- Potential staff churn;
- Illegal dumping of asbestos;
- Lack of focus on waste strategic vision;
- Local miss-interpretation of rates and fees;
- Public perceptions of low value of waste staff.

23. Water Supply

Green Amber Red

Under the 4-year Delivery Plan *Water Supply* relates to: ongoing water catchment, storage, treatment, distribution, monitoring, regulating, reporting, compliance, charging and administration. The Office of the Chief Operating Officer directly oversees the outcomes.

Capital Income:
New financial year; new water filtration plant funding. Drought funding is expected to increase capital.

Capital Expenses:
New financial year; planning is underway, some expenditure under flood grant.

c) Capital Projects

Capital projects planning has commenced.

d) Emerging Issues, Risks and Opportunities

Water supply in drought conditions have decreased even with another spate of fires in the Shire decreases by 5KL to 705KL since the last reporting with inflows at the STP decreased by 45KL to 465KL demonstrating the recycling of water throughout the town.

Concerns raised over additional strain for supply from events have been acted on with educational material in preparation along with issue of shower timers for accommodation businesses (delivered and more requested).

Boiled water Alert was enacted on Friday the 4th October and continue to be in force, from a turbidity failure due to ash from the recent fires, close monitoring and discussions including NSW Health and DPI plant inspections occurred in October.

EPA undertook sampling of the dam to ensure water quality.

Repairs continue from the damage from the fires with the de-watering bag was also replaced. Repair of the sludge pond liner is progressing with estimates for temporary alternate storage as large 500KL tank.

Request for Dam survey/monitoring is underway with fortnightly readings commenced. Additionally due to the decrease in volume the old 'Slaughter house' footings and asbestos has been uncovered plans have been enacted to remove this from the dam. Thanks to the Library staff who reserached the historical find!

e) The Business of Improving the Business

Drilling Rig arrived and commenced drilling positive news with water found in first test site core samples and test site 2; recent fires in Tenterfield left the bore site undamaged at the archery club. Drilling successes for supply at the transport museum and RFS sites additional drawdown testing has been completed and authorisation for production bores for transport museum, RFS and Archery Club have been received.

De-vegetating and de-sedimentation of the dam progressing well with an estimated increase to capacity of 5 Million litres works continuing on the basis of soil moisture content to enable machinery access.

Replacement of the pumps to submersibles is underway in Urbenville following pump failure. Planed replacement was enacted and inspection with contractors on site earlier in October works scheduled at the end of November 2019.

Developer servicing plans review by Cardno council's consultants are commencing the audit stage.

f) Customers

We respond to customer service requests regularly with people reporting 3 main breaks this reporting period, 2 leaks or faults and 2 new water services Tenterfield; 0 in Jennings and 1 main failure in Urbenville. All requests are responded to in a timely manner. Replaced 0 new water services at Urbenville.

g) Business Statistics:

The below graph (Graph 1) shows the amount of water being taken from the Tenterfield Dam. As can be seen, the dam is now at 25%. The second graph (Graph 2) demonstrates the performance of Shirley Park bore in comparison to town consumption, a variable speed device and level sensors where added to the bore increasing effectiveness demonstrating by the secondary supply in delivering water. The third graph (Graph 3) demonstrates the usage of the livestock bore.

h) Special events, achievements of note, celebrations

New RO plant provided by Rural Aid and SaltFree plant survived close shave with fires; pipes feeding plant where damaged. These are now replaced and the RO plant is functioning. Water saving New Banner for Council Email including restrictions additional mobile advertising with restriction signs.

Success for finding water supplies was celebrated with the media see Figure 1 and 2.

SWOT ANALYSIS

Water and Sewer – (MWW)

S

Strengths

- Few Customer complaints;
- High level of regulatory compliance associated with service supply;
- Understanding of strategic/business planning and needs over a 10-year horizon;
- Research, data and reporting capabilities and analysis to inform capital works;
- Excellent day to day and emergency response capability;
- Some assets near new (Urbenville and STP Tenterfield);
- Dam wall project nearing completion.

W

Weaknesses

- Insufficient capacity to ensure compliance with all aspects of regulation and timely delivery of all renewals and new capital works in the Strategic Plan;
- Tightening regulatory compliance will require future capital works, which may be beyond Council capacity to fully fund advocacy will be needed;
- Current administrative support structure requires Managers to do administration. Duties better performed by an Administration professional;
- Geographical information system requires review.

O

Opportunities

- Obtain possible subsidy funding for water treatment facilities;
- Obtain funding for flood systems/studies;
- New technologies are available to provide solutions for regulatory compliance and energy and operational efficiency. They can meet changing customer expectations and supply features central to planning, design, construction, system control, communication, asset management and data.

T

Threats

- Lack of funds for new water treatment – Federal and State funding needs to be restored for projects to proceed in a timely way. Un-programmed capital works;
- Increased Legislation and Management requirements diverting staff from planned work and problem solving;
- Reduced Section 64 income, due to slow growth and need for higher charges;
- Inability to deliver asset management, the impact of climate change;
- Water rate misconceptions.

Operational Income

New financial year; budgets in line.

Operational Expense:

New financial year; expenses budgets on track, planning for impending contracts/works will increase expenditure.

Capital Income:

New financial year; increasing as expected, no private works scheduled.

Capital Expenses:

New financial year; designs underway for pump station replacement.

c) Capital Projects

Clifton Street augmentation is complete with finalisation of plans and gazettal underway.

Joint project to deliver new planter boxes, with W&S consulting for requirements and augmentation needs.

Planning underway for 2019/2020 works, *line selections for CCTV, cleaning and relining, to continue the asset maintenance program including the 1km licence condition has developed with planning for new year.*

Manhole inspection for over 200 manholes for condition assessment, GPS and address location is completed. The works provide scope for repairs.

Replacement of the sludge dehydrator has progressed with arrival on the docks in Sydney, installation is expected to commence later in the month.

d) Emerging Issues, Risks and Opportunities

Aging infrastructure is an issue for Council;

- Urbenville- Butt welding, completed for Urbenville in late August with burial due underway with 1km completed in Late September 2019.
- Molesworth Street replacement infrastructure has commenced with design awarded and contract commencement including site inspections and survey, for a new pump station to replace the Molesworth Street bridging structure. To save on costs a second pump station design at Derby Street will be brought forward. *Designs are nearing completion and draft designs reviewed at the end of October 2019. Received confirmation that under bore doesn't require fisheries permit.*
- *An opportunity has arisen from the water/bore second phase of infrastructure deployment, which requires the utilisation of under-borers'. It is expected to package jobs to potentially provide savings, survey for intersection completed.*

e) The Business of Improving the Business

To assist in sewer maintenance a new shed will be erected on the STP site; planning is underway.

Investigations into a cross boarder scheme for Jennings connections is still under funding source investigations.

Developer servicing plans review by Cardno council's consultants are commencing the audit stage.

f) Customers

Our customer base is the public, other Council departments and contractors.

Blockages were reported and cleared at 6 locations in Tenterfield and 0 in Urbenville in this reporting period.

g) Business Statistics

Average time for response to sewer chokes remains at 27 minutes while the median time remains at 15.

h) Special events, achievements of note, celebrations
