Version 13 (XX June 2020 - Res No. XXX/20)

#### **Background**

On 1 October 2009, the NSW Government's framework for integrated planning and reporting for local councils came into effect.

Every council must prepare a number of plans, which detail how the council intends to deliver services and infrastructure in the short and long term, based on community priorities that have been identified through community engagement in the planning process.

The Delivery Program 2017-2021, incorporating the Operational Plan 2020-21, outlines the actions Council will take towards achieving the Tenterfield Shire Community Strategic Plan.

The Delivery Program (DP) identifies what the Council is responsible for delivering to support the Community Strategic Plan, and allows the Council to set out specific priorities for their elected term of office (4 years).

The Operational Plan (OP) details the actions and programs to be undertaken each year to support of the Delivery Program and Community Strategic Plan.

This plan includes the financial overview for the coming twelve month period and the Revenue Policy that Council will apply. The budget proposed for the 4 year Delivery Program is also included for reference on how we will financially support the actions outlined.

#### **Navigating Our Plans**

The strategies identified in the Community Strategic Plan are carried through to the Delivery Program and the actions identified in the Delivery Program are carried through to the Operational Plan.

The 4 year Delivery Program links the provisions of the long term Strategic Plan with the implementation of the Operational Plan. It is the strategic document that guides Council's activities and programs over the coming four year elected term aligned with its responsibility and capacity to support achieving the Community Strategic Plan outcomes.

Services are the fundamental means by which Council's four year Delivery Program is provided. Council delivers 24 ongoing services. The 24 services reported in the Operational Plan include services provided directly to the Community and those services that support Council's internal functions. These services contain subservices that may support multiple Delivery Program activities over the duration of the Program. The Actions and Programs contained under service headings identify what Council plans to do in the coming year to support the direction of the Delivery Program. The service identified in the achievement of the Delivery Program will change annually dependant on Actions and Tasks contained in the Service Summaries, for the Operational Plan period.

Key Performance Indicators (KPI's) provide a means by which service performance can be measured in achieving the Delivery Program.

The Responsible Officer is the staff member responsible for the service that contributes to meeting the Operational Plan by delivering the action.

## **Delivery and Operational Plan Links:**

4 Year Delivery Program	Actions and Plans
Delivery of survey and design works for infrastructure services, including storm water drainage, transport, and water and sewer infrastructure.	and design activities meet agreed quality and
	Deliver Business improvements, recognising emerging risks and opportunities.

	Manage the Asset Management and Resourcing Service of Council in a financially responsible manner in line with Budget allocations.
Review and implement planning for footpaths and cycleway infrastructure that is safe for users and supports connectivity and active recreation in urban environments.	Review the Pedestrian Access and Mobility Plan (incorporating the Disability Action Plan) and Bike Plan to identify any priority gaps in connectivity in our Towns and Villages.
Asset planning considers the impact of consumption and cost driven by the increased demand for existing services and attracts a contribution priced to reflect this impact.	Undertake annual inspections (or as deemed appropriate) for condition assessment of Council infrastructure and assets.
Asset Planning, Policy and Management provide strategic direction and information to Council enabling the sustainable management of its asset portfolio as a whole.	Develop and implement the Strategic Asset Management Plan and associated systems.
Risk Management embedded in our Asset Management Planning forms the basis for our intervention programs and our Asset Management practices.	Review and update Council's Risk Register and intervention programs on an ongoing basis in accordance with inspection schedules.

### **Sewerage Services**

### **Service Description:**

To provide sewerage services in urban areas that is environmentally sustainable and cost effective to meet the demand of our community complying with relevant legislative requirements.

## **Key Outputs:**

- Sewerage services Tenterfield and Urbenville
- Asset maintenance, renewal and upgrade program (sewer mains, valves and hydrants)
- Compliance with EPA and DPI Water licence conditions and guidelines

## **Community Strategic Plan Links:**

Community Strategic Plan Goals	Community Strategic Plan Strategies
<b>ENVO 11</b> Secure, sustainable and	11.3 Waste from our operations is managed to
environmentally sound infrastructure and	reduce the volume and take advantage of
services underpin Council service delivery.	recycling opportunities available to us.
LEAD 14 Resources and advocacy of	14.6 Council continually reviews its service
Council are aligned support the delivery of	provision to ensure best possible outcomes for
the community vision outlined in the	the community.
Community Strategic Plan.	

### **Delivery and Operational Plan Links:**

4 Year Delivery Program	Actions and Plans
Provide effective and efficient delivery of sewerage services across to the townships	Maintenance and operation of sewerage network, in line with the Asset Management Strategy.
of Tenterfield and Urbenville.	Deliver Business improvements, recognising emerging risks and opportunities.
	Manage the Sewerage Services of Council in a financially responsible manner in line with Budget allocations.
Ensure improvement of infrastructure in line with best practice water treatment guidelines and increased capacity for sewage treatment in service areas.	Tenterfield Shire Council sewerage network upgrades and maintenance conducted in accordance with demand and affordability constraints.

#### **Revenue Policy Statement**

It is a requirement of Section 405(2) of the Local Government Act 1993 to incorporate into Council's Operational Plan a Revenue Policy.

The objectives of Council's Revenue Policy are:

- 1. To identify the revenue sources available to Council, and
- 2. To establish the total revenue required by Council to fund its activities, within limitations.

#### **Land Classification**

In accordance with Section 514 of the Local Government Act 1993, each parcel of land within Council's area must be categorised for rating purposes.

There are four primary land categories used for rating purposes, being:

- Farmland
- Residential
- Business
- Mining

In addition to this, Councils rating structure includes a number of sub categories, they are as follows:

- **Residential** (6 sub categories): Tenterfield; Tenterfield Urban; Jennings; Drake; Urbenville; Other.
- **Business** (5 sub categories): Tenterfield; Jennings; Drake; Urbenville; Other.

#### **Rating Categories**

Maps relating to each of the following rating categories, as well as Waste Collection Area Maps can be found at the end of this Revenue Policy.

#### **Farmland Rate**

The Farmland Rate applies to all rateable assessments categorised as farmland under Section 515 of the Local Government Act throughout the whole of the Council area.

#### **Residential Rate**

The Residential Rate applies to all rateable assessments categorised as residential under Section 516 of the Local Government Act throughout the whole of the Council area.

#### **Business Rate**

The Business Rate applies to all rateable assessments categorised as Business under Section 518 of the Local Government Act throughout the whole of the Council area.

#### Mining Rate

The Mining Rate applies to all rateable assessments categorised as Mining under Section 517 of the Local Government Act throughout the whole of the Council area. The following table identifies the rateable assessments.

A51581	Lot 8 DP 753286							24.28 HA	

#### **Rating Structure**

Section 497 of the Local Government Act 1993 provides the method for structure of the general rate. A Councils option are:

- a) an ad-valorem;
- **b)** an ad-valorem with a minimum, or
- **c)** a base amount plus an ad-valorem.

In an attempt to provide a fair and equitable rating structure, Council has determined base amounts for the Residential, Farmland, Business and Mining categories (and Sub Categories where applicable)) in line with Sections 497 and 536 of the Local Government Act, 1993 as per below:-

- ❖ The rating structure for Council's Residential Tenterfield Sub Category is based on the combination of a base amount rate and an ad-valorem (amount in the dollar) component. The level of the base amount has been set to achieve 48.44% of the total rate income from this sub-category of Residential Rates, with the ad-valorem component raising the remaining 51.56% of the total income.
- ❖ The rating structure for Council's Residential Tenterfield (Urban) Sub Category is based on the combination of a base amount rate and an ad-valorem (amount in the dollar) component. The level of the base amount has been set to achieve 23.34% of the total rate income from this sub-category of Residential Rates, with the ad-valorem component raising the remaining 76.66% of the total income.
- ❖ The rating structure for Council's Residential Urbenville Sub Category is based on the combination of a base amount rate and an ad-valorem (amount in the dollar) component. The level of the base amount has been set to achieve 49.17% of the total rate income from this sub-category, with the ad-valorem component raising the remaining 50.83% of the total income.

- ❖ The rating structure for Council's **Residential Jennings Sub Category** is based on the combination of a base amount rate and an ad-valorem (amount in the dollar) component. The level of the base amount has been set to achieve 49.64% of the total rate income from this sub-category, with the ad-valorem component raising the remaining 50.36% of the total income.
- ❖ The rating structure for Council's **Residential Drake Sub Category** is based on the combination of a base amount rate and an ad-valorem (amount in the dollar) component. The level of the base amount has been set to achieve 48.96% of the total rate income from this sub-category, with the ad-valorem component raising the remaining 51.04% of the total income.
- ❖ The rating structure for Council's **Residential Other Sub Category** is based on the combination of a base amount rate and an ad-valorem (amount in the dollar) component. The level of the base amount has been set to achieve 24.64% of the total rate income from this sub-category, with the ad-valorem component raising the remaining 75.36% of the total income.
- ❖ The rating structure for Council's Farmland Category is based on the combination of a base amount rate and an ad-valorem (amount in the dollar) component. The level of the base amount has been set to achieve 25.32% of the total rate income from this category, with the ad-valorem component raising the remaining 74.68% of the total income.
- ❖ The rating structure for Council's Mining Category is based on the combination of a base amount rate and an ad-valorem (amount in the dollar) component. The level of the base amount has been set to achieve 47.45% of the total rate income from this category, with the ad-valorem component raising the remaining 52.55% of the total income.
- The rating structure for Council's Business Tenterfield Sub Category is based on the combination of a base amount rate and an ad-valorem (amount in the dollar) component. The level of the base amount has been set to achieve 40.58% of the total rate income from this category, with the ad-valorem component raising the remaining 59.42% of the total income.
- ❖ The rating structure for Council's Business Other Sub Category is based on the combination of a base amount rate and an ad-valorem (amount in the dollar) component. The level of the base amount has been set to achieve 44.26% of the total rate income from this category, with the ad-valorem component raising the remaining 55.74% of the total income.
- ❖ The rating structure for Council's Business Urbenville Sub Category is based on the combination of a base amount rate and an ad-valorem (amount in the dollar) component. The level of the base amount has been set to achieve 47.11% of the total rate income from this category, with the ad-valorem component raising the remaining 52.89% of the total income.
- ❖ The rating structure for Council's **Business Jennings Sub Category** is based on the combination of a base amount rate and an ad-valorem (amount in the dollar) component. The level of the base amount has been set to achieve 46.77% of the total rate income from this category, with the ad-valorem component raising the remaining 53.23% of the total income.
- The rating structure for Council's Business Drake Sub Category is based on the combination of a base amount rate and an ad-valorem (amount in the dollar)

component. The level of the base amount has been set to achieve 49.09% of the total rate income from this category, with the ad-valorem component raising the remaining 50.91% of the total income.

**Note:** A base amount is an amount paid by every rateable property in that land category, regardless of land value. The ad valorem amount (cents in the dollar applied to land value) is an amount calculated in addition to the base amount. The base amount and Ad Valorem amount are combined to give the total amount of the rate.

#### **Land Valuations**

The Valuer General's Department is the agency that determines the unimproved capital value of all properties within a Council area for the purposes of rating. The *Valuation of Land Act 1916 (NSW)* requires Council to calculate rates on the most recent values provided by the Valuer General.

Council cannot make and levy a rate in respect of a parcel of land unless it has been furnished with a valuation of that land by the Valuer General. The Valuer General assesses all values independently of Council. Council does not participate in the valuation of land for rating purposes.

The Valuer General re-values all properties within the Tenterfield Shire Council area once every three years. A Re-valuation was carried out during 2019 by the Valuer General and a new base date of 1 July 2019 has been issued, this will take effect to calculate rates from 1 July 2020. Information on the valuation methodology can be obtained through the department's website:

https://www.valuergeneral.nsw.gov.au/land values/how do we value land/valuation method

#### **Rate Rebate**

In 2020/2021 a one off rate rebate of \$100 per rateable assessment will be applied to the Annual Rates Notice.

The allocation of these funds, totalling \$500K was approved by Council at the 26 February 2020 Ordinary Council Meeting (Resolution Number 40/20)

This rebate will be funded from a \$500K grant provided by the Federal Government's National Bushfire Recovery Agency.

### **Council's Ordinary Rating Structure**

#### **Revenue Limitation**

For 2020/21 Council has applied the rate peg of 2.6% when calculating rates for the 2020/21 financial year. This permissible increase was set by the State Government, through the Independent Pricing and regulatory Tribunal (IPART).

#### **Payment of Rates**

The Local Government Act provides that rates payable may be made in four instalments with the amount of each instalment becoming due and payable on the date of the instalment. The instalment dates for Council for the 2020/21 rating year are as follows:

- 1. 31 August 2020
- 2. 30 November 2020
- 3. 28 February 2021
- 4. 31 May 2021

Fees and Charges for each of the subsequent items can be located in Council's Fees and Charges listing at the end of this Operational Plan or on Council's website.

#### **Water Supply Charges**

#### **Water Pricing Policy Statement**

Council proposes to adopt as part of the 2020/2021 Operational Plan a Policy for Water Pricing which incorporates the user pays principle. The proposed water pricing policy for the 2020/2021 financial year is based on the following charging components.

- (a) An annual availability charge which applies to each individual connection to the water supply and to each property to which a service connection is available to a Water Supply System;
- (b) A consumption based charge for each kilolitre of water consumed.
- (c) An Infrastructure Charge to cover the loan repayments on the new Water Treatment Plant loan to fund the difference between the grant Council has received for this purpose and the full cost of the new facility.

The purpose of this Water Pricing Policy is to:-

- (a) assist in the financing of the water supplies;
- (b) provide for future capital works, and
- (c) encourage a conservative use of water.

#### **Water Supply - Availability Charge**

In accordance with Section 501 of the Local Government Act 1993, Council proposes to levy an Availability Charge applicable to all properties connected or able to be connected to a Council Water Supply.

In accordance with Section 552 of the Local Government Act a water supply charge will be levied on land that is supplied with water from a water pipe of the Council and also land that is situated within 225 metres of a water pipe and physically able to be connected to Council's water main.

The Water Supply Service Availability Charges are set out in Council's Fee and Charges document which forms part of this Operation Plan.

The minimum non-residential water access charge will be the annual residential water availability charge. The service availability charge for residential strata lots will be 75% of the residential service availability charge. This recognises that strata developments utilise shared services infrastructure at a lower cost to Council and provides a higher income yield for each rateable property.

The water supply service availability charge is levied as a charge per water connection to each rates assessment.

The account for the access charge will be included on the annual rates notice.

The estimated yield from availability and access charges for 2020/21 is \$1,122,570.

#### **Water Supply - Consumption Charges**

In accordance with Section 502 of the Local Government Act 1993, it is proposed to levy a charge for the consumption of water for all properties, as detailed in Council's Fee and Charges document which forms part of this Operation Plan

The estimated yield from usage charges for 2020/21 is \$1,227,293.

#### **Mount Lindesay Private Water Line Maintenance Charge**

A charge per water meter as outlined in the Fees and Charges Section of the Operational Plan applies to users of the Mount Lindesay Private Water Line.

#### **Minimum Account Charge**

In the 2020/2021 Billing Year there will be a minimum water consumption account charge of \$25.00 for each of the six (6) monthly billing periods.

#### **Damaged Water Meter**

If at the time of reading a water meter it is found to be damaged or has stopped, an account will be issued based upon the average water consumption for the previous two corresponding water billing periods.

#### **Concealed Water Leakage Concession Policy**

Please refer to Council's Policy on this matter if you have a concealed water leak. The Policy is available on Council's website.

#### **Sewerage Service Charges**

#### **Sewerage Service - Availability Charge**

In accordance with Section 501 of the Local Government Act 1993 Council proposes to levy a Sewerage Service Charge on each parcel of rateable land for which the service is provided or proposed.

A parcel of rateable land is defined in the Local Government Act 1993 as a portion or parcel of land separately valued under the Valuation of Land Act 1916.

The Sewerage Availability Charge shall be applied in accordance with Section 502 of the Local Government Act 1993 to every rates assessment for each sewerage connection from 1 July in each rating year when the property subject to the rate assessment is within the Tenterfield or Urbenville Town areas and;

- (a) is connected to the Council's sewer main, or
- (b) is not connected to the Council's sewer main but any part of the property is no more than 75 metres from the Council's sewer main, and
- (c) is land from which sewerage can be discharged into the sewers of Council.

In respect of Residential Flat Buildings a Sewerage Availability Charge will be made equal to the number of residential flats multiplied by the service charge for a single connection. This fee is set out in Council's Fees and Charges.

The estimated yield for residential sewerage availability charges is \$2,006,405.

#### **Annual Charges - Non-Residential Sewerage**

Commercial and other non-residential sewerage customers will incur an access charge based on the size of the customer's water connection meter plus a pay-for-use charge based on the water used. The annual non-residential sewerage charge will be calculated using the following formula:

Annual Non-residential Sewerage Charge =  $AC+SDF \times (C \times UC)$ 

AC = Access Charge

SDF = Sewerage Discharge Factor determine by type/use.

C = Customers annual water consumption in kilolitres.

UC = Sewerage Usage Charge (\$2.90 per kilolitre in 2020/21).

The Non-Residential Sewerage Charge is levied as a charge per sewerage connection to each rates assessment, or if no sewerage connection is provided then a Non-Residential Sewerage Charge will be levied on all sewered land in the Tenterfield and Urbenville Town areas within 75 metres of Council's main and physically able to be connected to Councils main (in accordance with Section 552 of the Local Government Act 1993), the Non-Residential Sewerage Service Charge will then apply to the number of parcels of rateable land separately valued as at 1 July in each rating year.

The minimum non-residential sewerage access charge will be the annual residential sewerage availability charge.

The estimated yield from Non-residential charges for 2020/21 is \$356,644.

#### **Trade Waste Charges**

The estimated yield from the Trade Waste charges for 2020/21 is \$10,920.

The trade waste bill for a trade waste customer will be:

 $TW = A + I + C \times UC \times TWDF$ 

Where TW = Total annual trade waste fees and charges (\$)

A = Annual Trade Waste fee (\$)

I = Re-inspection fee (\$) where required

C = Customer's annual water consumption (kl)

UC = Trade waste usage charge (\$/kl)

TWDF = Trade waste discharge factor

The account for the annual trade waste fee (A) and re-inspection fee (I) (where applicable) will be included on the annual rates notice. The account for the usage component applicable) will be issued on a half yearly billing cycle in conjunction with Water Usage accounts.

#### **On-Site Sewage Management Charges**

The owners of all premises (other than those licensed by the NSW EPA) are required to obtain approval to operate an on-site human waste treatment facility.

Upon initial assessment of an on-site sewage management system Council may require owners to undertake maintenance or replacement of a system prior to issuing an approval, to ensure that performance standards are being adhered to, and human and environmental health impacts are minimised.

Council proposes to apply a user pays policy in regards to the recovery of costs for on-site sewage management.

#### **Waste Management Charges**

#### **Waste Management Facility Charge**

In accordance with Section 501 of the Local Government Act 1993, it is proposed to levy an annual charge on all rateable properties as a Waste Management Facility charge. This charge recognises that all rateable properties potentially produce waste and hence should contribute to the costs of running Council's Waste Management Facilities. Gate charges will apply as per Council's Fees and Charges Policy.

The estimated yield from the Waste Management Facility charge for 2020/21 is \$1,251,712.

#### **Waste Management Collection Charge - Domestic**

In accordance with Section 496 of the Local Government Act, 1993, Council proposes to levy an Annual Domestic Waste Management Collection Charge on Domestic Properties within the designated Domestic Waste Collection Service Area.

The collection areas are outlined in the maps at the end of this Revenue Policy.

The estimated yields from the Domestic Waste Management Collection Charges for 2020/21 are:

Domestic Waste Management per 120L \$467,670 Domestic Waste Management per 240L \$406,824

#### **Waste Management Collection Charge - Non Domestic**

In accordance with Section 501 of the Local Government Act, 1993, Council proposes to levy an Annual Waste Management Charge on Non-Domestic Properties. Within the designated Non-Domestic Waste Collection Service Area.

The collection areas are described in the maps at the end of this Revenue Policy.

The estimated yields from Non-Domestic Waste Management Collection Charges for 2020/21 are:

Non-Domestic Waste Management per 120L \$28,689 Non- Domestic Waste Management per 240L \$134,090

#### **Waste Management - Recycling Collection Charges**

In accordance with Section 496 of the Local Government Act, 1993, Council proposes to levy an Annual Waste Recycling Charge on all residential properties within the designated Residential Waste Recycling Collection Service Area.

The collection areas are described in the maps at the end of this Revenue Policy.

The estimated yield from the Residential Waste Recycling Charge for 2020/21 is \$133,836.

In accordance with Section 501 of the Local Government Act, 1993, Council proposes to levy an Annual Waste Recycling Charge on all Non-Residential properties within the designated Non-Residential Waste Recycling Collection Service Area.

The collection areas are described in the maps at the end of this Revenue Policy.

The estimated yield from the non-Residential Waste Recycling Charge for 2020/21 is \$17,252.

#### **Bulk Solid Waste Charges**

In accordance with Section 502 of the Local Government Act 1993, Council proposes to charge a Waste Management Charge for the removal of Builders waste and waste from commercial and domestic properties by way of a collection service from Trade Waste Bins and for the rental and delivery of these bins.

The proposed charges are set out in Council's Fees and Charges under the Waste Management section.

#### **Waste Vouchers**

Council has determined that three (3) waste vouchers will be issued with the annual rate notices. The value of each of these vouchers will be \$27.00, which is equivalent to the fee for a small box trailer. For terms and conditions please refer to the vouchers when you receive them.

#### **Stormwater Management Services**

In accordance with Section 496A of the Local Government Act 1993 Council proposes, to make and levy an annual charge for the provision of stormwater management services for each eligible parcel of land within the Business - Tenterfield sub category boundary, all properties within the boundary of the village of Jennings and all properties within the boundary of the village of Urbenville.

The estimated yield from the Stormwater Management Charges for 2020/21 are:

Stormwater Management Charge	\$40,850.00
5	' '
Strata Title Per unit	\$212.50
Stormwater Business <350 m2	\$950.00
Stormwater Business 350 m2 -1200 m2	\$3,200.00
Stormwater business 1200 m2 - 5000 m2	\$14,144.00
Stormwater Business > 5000 m2	\$13,209.00

#### **Fees and Charges**

Fees and Charges are calculated in accordance with the recommendations of the Local Government and Shires Association detailed in "Determination of Fees and Charges under the Local Government Act, 1993" released in April, 1994.

Variations outside this policy are identified specifically in the Fees and Charges Schedule.

Where fees are fixed by State Government Acts and regulations they will be adjusted as legislation requires.

A list of Council's Fees and Charges proposed to apply from the 1st July, 2020, is included in this Operational Plan.

#### **Section 67 Private Works Charges**

Details of the Private Works Charges for 2019/2020 are included in the fees and charges section of this Operational Plan.

#### **Borrowings**

It is proposed to borrow \$3,664,071 in 2020/2021 for infrastructure projects. Of this amount, \$1,509,869 is for Waste Management capital projects, and \$2,154,202 is predominately for Transport Network capital works.

#### **Restricted Funds**

Internally restricted funds and externally restricted fund are set aside each year for various purposes. The balance of these funds as at 30 June in any given year can be found in Council's audited Financial Statements.

Council had \$693,915.48 externally restricted for Bruxner Way works. This was transferred to the capital works budget in 2019/20, and work has commenced on this project. Any unspent balance at the end of the 2019/20 financial year will be restricted and carried-forward for the completion of works in 2020/21
