23 March 2021

IF IT'S FLOODED FORGET IT!

Unless you need to travel today, please stay home.

Council advises that due to the rapidly changing conditions impacting the road and bridge infrastructure across the Shire, warnings will not be issued for individual roads during this current weather event.

"For the safety of yourself, Emergency Crews and Council road crews, please do not enter floodwaters. If you must travel, be aware that the current heavy rain event is causing large and deep potholes to develop in road surfaces and water sheeting is making driving conditions treacherous", said Mayor Peter Petty.

"Due to rising water levels, our crews are unable to access many areas of the Shire. Please stay safe", Mayor Petty urged.
