## WHAT GOES IN YOUR RECYCLE BIN?

Tenterfield Shire Council would like all residents to take a second and make sure items being thrown in the recycle bin are actually recyclable!

As a community we are excellent at recycling and are making a massive difference in ensuring the sustainability of our environment and of Council's waste requirements.

However, we are finding increased levels of contaminated or un-recyclable material being discovered during the sorting process, including asbestos. This material is not only an obvious risk to anyone having to handle the waste product, but it also becomes a health and safety issue.

When a contaminated item is located in a load of recyclable material the entire load is deemed contaminated and is required to be disposed of, which costs Council between \$2,000 to \$6,000 per load (dependant on type of contamination). These costs are then passed on to the community as ratepayers.

For a full list of items that can and can't be recycled jump on [www.tenterfield.nsw.gov.au/services/waste-recycling](http://www.tenterfield.nsw.gov.au/services/waste-recycling) and together we can continue to make a difference to the sustainability of our environment.

Water & Sewerage Notices will be issued at the end of December 2021. Payments of accounts are due on or before 1 February 2022.

Ratepayers are reminded that interest accrues on all overdue rates, service charges and water & sewerage consumption charges on a daily basis at a rate of 6% per annum.
