INTEGRATED PLANNING AND REPORTING FRAMEWORK

This Long-Term Financial Plan (LTFP) makes up one of three parts of Council's **Resourcing Strategy** as required under the NSW Local Government **Integrated Planning and Reporting framework**:

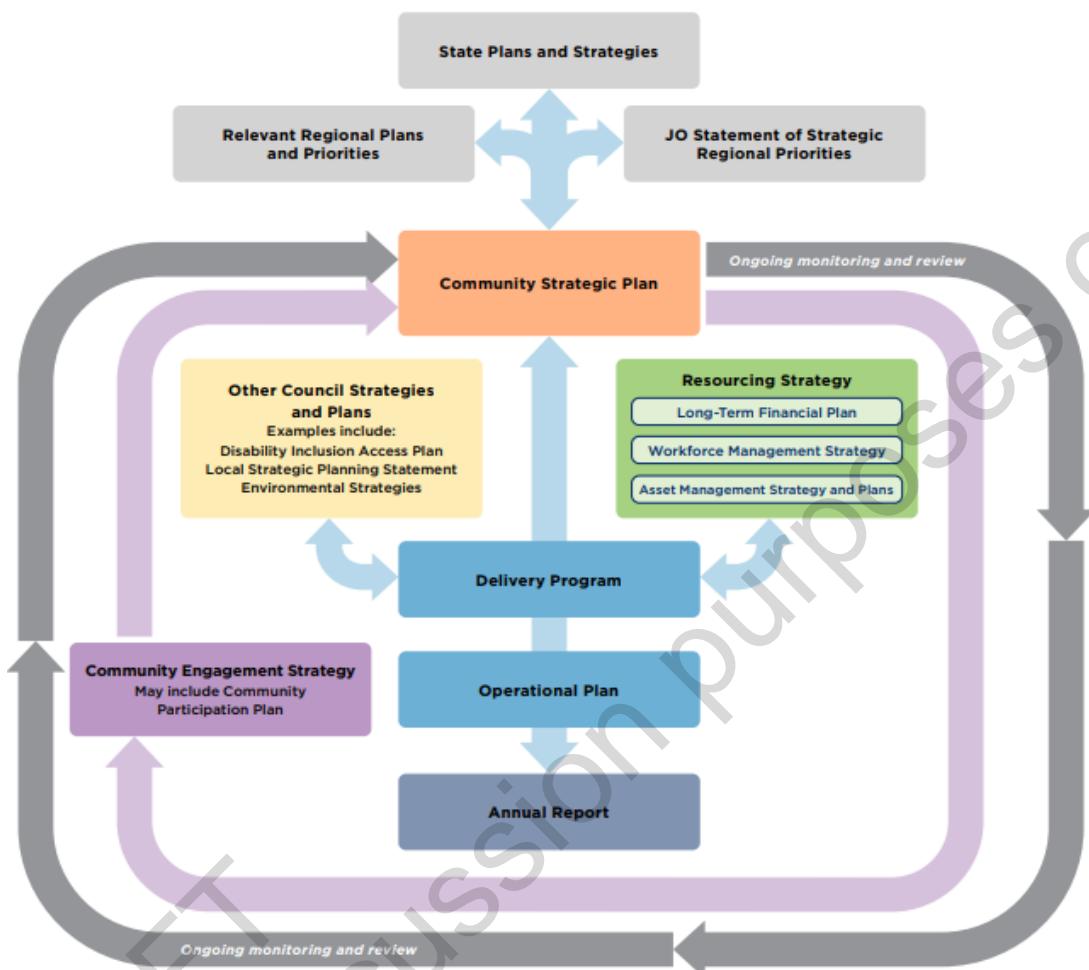

Figure 1: Integrated Planning & Reporting Framework

The Integrated Planning Framework encourages and supports the implementation and review of plans relating to the Financial, Asset and Workforce contributions to Tenterfield Shire Council. Through sound financial planning, strategic asset management and the development of a strong and diverse workforce, the Council can continue to address and improve its long-term sustainability and deliver the outcomes desired by the community.

The Resourcing Strategy informs, influences, and ultimately reflects Council's Community Strategic Plan which outlines the needs and aspirations of the people of Tenterfield Shire both now and into the future. Accordingly, all of the plans contained within the Resourcing Strategy provide key input in shaping both the Delivery Program (4 years) and Operational Plans (annual) of Council.

INTRODUCTION

This Long-Term Financial Plan has been prepared to:

- Confirm and communicate Council's financial objectives and forecasts for the planning period to the community and all of Council's stakeholders; and
- Guide the preparation of Council's Annual Budget and Delivery Program within the context of long-term financial sustainability.

The Plan provides a framework for sustainable financial management balancing our environmental, social, economic and governance objectives whilst delivering services and facilities to the people of the Tenterfield Shire Council area.

The Plan provides direction for future service planning and is a critical tool in identifying, leveraging and managing Council's key strengths, risks and opportunities with regard to Council's ongoing capacity and long-term financial stability. It also provides a prudent and sustainable financial framework for the longer term from which Council will develop its Operating and Delivery Programs.

The Plan is not a static document and will be reviewed annually as part of Council's strategic planning and budget process to ensure it remains reflective of the prevailing internal and external environment.

AIM OF THIS PLAN

- Establish a long-term financial direction encompassing appropriate performance measures against which Council's strategies, policies, plans and financial performance can be measured.
- Establish a robust and prudent financial framework, to which strategies can be integrated to achieve planned outcomes.
- Assist in eliminating strategic financial risks and identify Council's financial strengths and opportunities to be leveraged.
- Ensure that Council complies with sound financial management principles, as required by legislation, and adopted plans for the long-term financial sustainability of Council.

BACKGROUND

Like the majority of Councils in NSW, Tenterfield Shire Council faces a major challenge in funding its ongoing services whilst simultaneously maintaining and replacing its community assets in a manner in which to ensure their capacity into the future, whilst at the same time ensuring that rates remain at an equitable and affordable level throughout the community.

The growth in the cost of labour and materials, increasing demand for services and the shifting of costs from other levels of government, all combine with a legislative cap on revenue generated from rates, (rate pegging), to create a challenging financial environment to work within.

At the core of Tenterfield Shire Council's future financial sustainability will be the ability to adapt and respond to the challenges we face in delivering services more

efficiently, provide increasing operational productivity and developing opportunities to generate additional revenue sources, including Special Rate Variations where there is no reasonable alternative options.

Long Term Financial Planning (LTFP) is vital for informing Council, our community and other stakeholders about the long-term financial position and sustainability of our organisation. The aim of our Plan is not only to ensure the financial sustainability of Council over the longer term, but also to provide for the appropriate maintenance and replacement of Council's assets into the future.

The Long-Term Financial Plan will provide but not be limited to the following key benefits:

- It provides an indication of the future financial position and performance of Council;
- A projection of the holistic long-term costs of decisions to fully inform debate and ultimately strategic decision making;
- A tool to assist Council to determine the financial sustainability of both current and projected future service levels;
- A method to determine the risks in adopting future strategic directions;
- The capability for Council and the community to test the outcomes of scenarios resulting from different policy settings and service levels;
- A mechanism to test the robustness and sensitivity of key assumptions underpinning a range of strategic planning alternatives; and
- A vital contribution to the development of Council's Asset Management Strategy and all of Council's plans.

CURRENT FINANCIAL POSITION

The audited Financial Statements at the 30th June 2021 showed cash and investments of **\$13.383 million**, being made up of Externally Restricted cash reserves (such as Water, Sewer, Domestic Waste, Developer Contributions and unexpended grants) totalling **\$14.6 million**, and Unrestricted cash reserves of **negative \$1.2 million**. The cause of this negative unrestricted cash position was due to timing issues between grant and disaster recovery works being paid for by Council and being reimbursed by the State Government. However, it does show Council's lack of reserves is having a serious impact of Council's ability to operate sustainably.

Whilst Council's audited financial statements note that Council's current financial position is sound, Council's general fund is under immense pressure and without serious attention in the immediate future through reduced services levels or increased revenue (most likely from an SRV), Council will not remain in a sound financial position. Council's Water and Sewer funds are in better shape however the Water fund also requires attention for long-term sustainability. The operating result forecasts can be seen in detail financial tables.

The key performance measures upon which Council is measured are as follows from the 2020/21 audited financial statements:

Ratio	Measure	Target
Operating Performance Ratio	1.12	>0
Unrestricted Current Ratio	2.25	>1.5:1 is considered healthy
Debt Service Cover Ratio	6.98	>2.0 is considered healthy
Own Source Operating Revenue Ratio	31.97%	>60% is considered desirable
Rates & Annual Charges Outstanding Ratio	4.41%	<10% is considered acceptable
Cash Expense Cover Ratio	7.88 months	>3.0 is considered healthy

Having shown the above when you break these ratios down to the individual funds you start to see a truer picture of Council's financial position by fund.

Ratio	Target	General	Water	Sewer
Operating Performance Ratio	>0	(4.24)%	(9.17)%	37.91%
Unrestricted Current Ratio	>1.5:1	2.25x	4.5x	42.33x
Debt Service Cover Ratio	>2.0	6.67x	5.12x	11.77x
Own Source Operating Revenue Ratio	>60%	24.64%	57.24%	98.41%
Rates & Annual Charges Outstanding Ratio	<10%	6.37%	N/a	N/a
Cash Expense Cover Ratio	>3.0	Unable to determine by Fund		

MAJOR REVENUE SOURCE

Rating

Income from rates and annual charges forms a considerable part of Council's total overall revenue, equating to around **35%** of Council's total income for the 2021/22 financial year. Rating income is generated from four rating categories, being residential, business, farmland, and mining.

Tenterfield Shire Council's rate base consists of approximately 5,000 rateable properties which in 2022/23 are estimated to supply general rates of approximately \$4.85 million across the four categories. This income constitutes a significant funding source for the delivery of services to the Tenterfield Shire community.

REVENUE STRATEGY

The following items are to be pursued as a strategic means of growing our revenue base ultimately increasing income and reducing the reliance on any one revenue source:

- The complete review of all Business Plans and strategies for Council's commercial business undertakings;
- Identify opportunities to rationalise Council's asset base;
- Review service levels and service delivery methods;
- Identify and seek additional grant funding;
- Review Council's Investment Policy;
- A further investigation of expanded opportunities for resource sharing or joint tendering with neighbouring and other regional Councils; and
- Review all developer charges to ensure that income is maximised as much as possible including a user pays philosophy.

FINANCIAL PLANNING OBJECTIVES

The key objective of the Long-Term Financial Plan remains the achievement of financial sustainability across the short, medium, and longer term whilst still achieving Council's broader vision and community goals.

The Financial Plan is based on the following key strategies:

Sustainability

- Provide spending on infrastructure renewal to ensure that Council's physical assets are maintained to standards that provide functionality and serviceability.
- Provide a pricing strategy for services based on Council's preferred options for service delivery and subsidisation vs user pays principles.
- New or expansionary community assets to be funded via property development and s64 and s711 developer contributions.

Liquidity

- Ensure Council has sufficient available cash to meet its debts as and when they fall due.
- Avoid budgets where the liquidity ratios fall below target.
- Utilise loan funds for renewal and replacement capital purposes and to achieve inter-generational equity in the absence of pre-established reserves to fund this expenditure.
- Utilise a range of reserves to smooth cash flow, particularly in relation to large asset classes and unpredictable outlays such as Employee Leave Entitlement and Plant Replacement functions.

KEY FINANCIAL ASSUMPTIONS

As part of undertaking financial modelling, key assumptions that underpin the estimates must be made. The following assumptions have been used in the modelling contain within this plan:

Category	Background	Assumption
Rates	IPART recommended 2.5%	2.5%
User Charges & Fees	Based on average increase to Council's major operating inputs Water Sewer Waste	15% 5% 8%
Interest & Investment Revenue	Average estimated return from prevailing market	2%
Grants & Contributions - Operating	Based on recent past index factors	0 to 1%
Grants & Contributions - Capital	Based on recent past index factors	0%
Employee Costs	Already established Award conditions plus competency increases for Tenterfield Shire Council Guarantee increases	historical 3.25%
Superannuation	Average over 10 years based on wage changes plus proposed Super	4.63%
Materials & Contracts	Based on average increase to Council's major operating inputs	2.5 to 5%
Borrowing Costs	Based on average long-term rates and current market quotes (plus access to T-Corp)	2 % to 6%

FINANCIAL PERFORMANCE MEASURES

Council measures its financial performance reporting in accordance with the Statement of Performance Measures contained within Note 13 of the Local Government Code of Accounting Practice and Financial Reporting.

Council will review the Long-Term Financial Plan each year as part of the development of the next annual Operating Plan. The review will include an assessment of the previous year's performance in terms of the accuracy of the projections made compared with the actual results. The outcome will used to improve the accuracy of the Long-Term Financial Plan over the longer term. The major indicators include:

Measure	What it measures	Target	Calculation
Operating Performance Ratio	Council's ability to keep operating expenditure at a level at our below operating revenue.	>0%	Operating revenue- Operating expense/Total Operating Revenue
Debt Service Cover Ratio	The availability of operating cash to service debt including interest, principal and lease payments	>2.0x	Operating result less capital grants & contributions excluding interest and depreciation/Principal repayments and borrowing costs
Cash expense cover ratio	This liquidity ratio indicates the number of months a Council can keep paying for its immediate expenses without additional cash flow	>3 months	Current years cash and term deposits/Payments from cash flow of operating and financing activities x 12
Rates & Charges Outstanding Percentage	The impact of uncollected rates and annual charges on Council's liquidity and the adequacy of recovery policy and efforts.	<10%	Outstanding rates and annual charges/Revenue from rates and annual charges collectible
Building & Infrastructure Renewal Ratio	Assess Council's ability to renew its Infrastructure assets compared with the consumption (depreciation) of those assets	100%	Value of asset renewals/Depreciation expense for the assets

FINANCIAL PLAN SCENARIOS

In developing this long-term financial plan three scenarios have been modelled. The first scenario is Council's adopted position, the Current Model, and illustrates Council's projected financial performance and position over the next 10 years and the intergenerational equity and long-term holistic sustainability that it provides. Unfortunately, this scenario demonstrates that under the current model and based on current services levels, Council will experience significant operating deficits which will need to be addressed to ensure long term financial sustainability.

The second and third scenarios include a special rate variation that, if approved, would allow Council to work towards long term financial sustainability.

Note that in all scenarios the Water and Sewer Fund long-term financial plans remain the same, as a special rates variation would impact the General Fund only. As such, the plans for Water and Sewer have only been presented in the below pages once as part of the Current LTFP Model (Base – No SRV).

It should also be noted that some parts of the draft financial plans are still under review, and as such have been highlighted yellow as those calculations may yet change for the final version of this document.

Scenario Two demonstrates the impacts of an SRV implemented over two years. Scenario Three demonstrates the impacts of an SRV implemented over three years. Allowing for 5% inflation and rate peg in year three, the two scenarios are both designed to address the forecast \$5m operating deficits but over different timeframes that will allow the impact on the community to be assessed and managed.

1. Scenario 1: Current Model

The aim of this financial plan scenario is to present Council's current financial position and demonstrate Council's long term financial sustainability based on current service levels. This scenario has been developed to deliver on the community's vision as detailed in the new Community Strategic Plan and is integrated with and informed by Council's Asset Management Strategy and Workforce Management Strategy.

This is Council's adopted financial model and addresses Council's long-term infrastructure and service delivery needs. This is the adopted model upon which Council's Delivery Program (4 years) and Operational Plan (1 year) are constructed giving further detail to the programs and projects to be delivered.

The projected result (before capital grants) accumulated across the 10-year period for General Fund is a deficit of approximately **\$50 million** and demonstrates that Council will need to take immediate action to ensure long term financial sustainability.

2. Scenario 2: Current Model + SRV implemented over 2 years

The aim of this financial plan scenario is to present Councils current financial position and demonstrate Councils long term financial sustainability based on current service levels including an SRV to address the yearly \$5m forecast operating deficit. This scenariohas been developed to deliver on the community's vision as detailed in the new Community Strategic Plan and is integrated with and informed by Council's AssetManagement Strategy and Workforce Management Strategy.

Initial discussions with the community have shown that they do not want to see service levels reduced and, in some cases, want to see service levels increased. This scenario will be used to drive community consultation to ensure the community fully understand the impacts of SRV values and service level impacts.

For the 2022/23 Council has included loans of \$3.1 million to cover operational works and will have to take further loans for the 2023/24 FY if service levels are not reduced. Should this scenario be approved, loans would only be required for the 2022/23 and 2023/24 financial years and would provide the best outcome for Council by decreasing the future interest payable on these loans. Any additional loan funds borrowed or having to borrow over a longer period, would increase the interest payable.

The projected result (before capital grants) accumulated across the 10-year period for General Fund is essentially a balanced budget.

It is very important to note that this scenario does not allow for any capacity to deal with any asset backlog or future cost shifting, it purely addresses the current forecast operating deficit.

3. Scenario 3: Current Model + SRV implemented over 3 years

The aim of this financial plan scenario is to present Councils current financial position and demonstrate Councils long term financial sustainability based on current service levels including an SRV to address the yearly \$5m forecast operating deficit. This scenariohas been developed to deliver on the community's vision as detailed in the new Community Strategic Plan and is integrated with and informed by Council's AssetManagement Strategy and Workforce Management Strategy.

Initial discussions with the community have shown that they do not want to see service levels reduced and, in some cases, want to see service levels increased. This scenario will be used to drive community consultation to ensure the community fully understand the impacts of SRV values and service level impacts.

For the 2022/23 Council has included loans of \$3.1 million to cover operational works and will have to take further loans for the 2023/24 FY if service levels are not reduced. Should this scenario be approved, loans would be required for the 2022/23, 2023/24 and 2024/25 financial years. Whilst this would lead to higher

costs of borrowing compared to scenario 2, it does provide for smaller increases for the community over three years which allows the community longer to prepare for the impacts of these increases. Given the difficult times in recent years through droughts, floods, and the impacts of COVID-19, it is likely that this is the scenario the community will be most receptive to.

The projected result (before capital grants) accumulated across the 10-year period for General Fund is essentially a balanced budget.

It is very important to note that this scenario does not allow for any capacity to deal with any asset backlog or future cost shifting, it purely addresses the current forecast operating deficit.

4. Unknown Shocks

As mentioned, the above scenarios do not allow for any capacity to deal with any asset backlog or future cost shifting, it purely addresses the current forecast operating deficit, although there may be some opportunities to use the funds for grant matching purposes to maximise future grant opportunities in managing existing assets.

Should any further shocks come to be known, these plans would need to be reviewed to ensure the full implications could be forecast. Examples of unknown shocks would be if the Governments Financial Assistance Grant (FAG) were frozen or reduced or if the rate peg value was significantly lower than the estimated rates and the true inflation rate.

RISK ASSESSMENT/ANALYSIS

The following risk factors have been considered in the development of this Long-Term Financial Plan and whilst some factors would only have a minor impact on the projections, others could have a more significant impact.

Areas which would have a particular impact on the projections, should they occur, include:

- Estimates to fund infrastructure renewal, replacement and significant on-going asset maintenance being inaccurate;
- Rates increase being lower than anticipated;
- Construction costs being higher than anticipated;
- Utility expenses being higher than estimated;
- Significant fluctuations in the rate of return for investments;
- Workers Compensation insurance costs;
- Further spikes in the payments required to the Defined Benefit Superannuation scheme;
- Award determined staff related expenses increasing more than anticipated.

There are also external factors beyond the influence of Council which could potentially impact most on the model, including:

- Further cost shifting from other levels of Government;
- Freezes to the indexation of recurrent operating grants;
- Changes to the taxation regime;
- Changes to the Superannuation Guarantee legislation;
- Forced amalgamation of Councils;
- Natural disasters.
