

VISITOR INFORMATION CENTRE

Did you know? As well as local knowledge on everything to see and do in the region, our Visitor Information Centre –

- * stocks a selection of local produce and Tenterfield souvenirs,
- * staff can assist with group itineraries,
- * has an electric vehicle charging station,
- * has a meeting room available for hire (free for community groups for up to 2 hours),
- * has volunteer opportunities available.

Call in today and speak to one of our friendly tourism ambassadors, or visit us at www.visittenterfield.com.au/visitors/visitor-information-centre

WEED OF THE MONTH - CAPE BROOM

How does this weed affect you?

Cape Broom is an evergreen, perennial shrub that was introduced to Australia as an ornamental garden plant and hedge. It prefers temperate climates with an annual rainfall over 500mm and is now a major weed of bushlands, pastures and roadsides across southern Australia.

How does it spread?

Cape broom reproduces from seed. Most spread is by soil movement and it is possible that graders and other roadside machinery have been responsible for spreading Cape broom along roadsides and into new areas. Animals may also contribute to dispersal. Plants begin to flower and produce seeds at two years of age. Seeds are hard-coated and can survive for many years in the soil. While germination usually occurs annually, major germination and survival events generally occur after fire or soil disturbance.

What does it look like?

Cape broom is an upright, perennial shrub growing to 3m high. It usually has one main stem with many branches.

Key identification features:

- * Young stems are ridged, green and lightly hairy, becoming woody and hairless with age.
- * Leaves are trifoliate (three-leaflets) on a central short stalk, with the centre leaflet being slightly longer than the outer two. Leaves are hairy mainly on their undersides, are oblong in shape and often end in a short point.
- * Flowers are bright yellow and pea-like. They are 8–12mm long and grow at the ends of branches in clusters of 3 - 9.
- * Flowering occurs from late winter to spring.
- * Pods are hairy all over, brown to black in colour, 15–25mm long and 3–5mm wide. They contain 5–8 seeds.
- * Seeds are dark brown to black, up to 3mm long, smooth, rounded and slightly flattened.

For more information please contact Council's Weed Officer on 0402 210 102 or head to NSW Weedwise - <https://weeds.dpi.nsw.gov.au/Weeds/CapeBroom>

COVID 19 statement

Council has implemented strict protocols to ensure we comply with directions issued by government in relation to managing the COVID 19 risk.

These protocols apply to our staff, our customers and visitors to our premises, and Councillors alike.

Please be understanding that we will do our best to maintain services and help in what are unique and challenging circumstances.

**CLOSURE OF COUNCIL OFFICES
7 NOVEMBER 2022**

Council wishes to advise that Council's Administration Office, Depot and Library will be closed on Monday, 7 November 2022 for the annual Union Picnic Day.

All offices will re-open for business on Tuesday, 8 November 2022.

Emergency telephone numbers for use during this period are as follows:

Waste Disposal	0422 138 318
Parks & Gardens	0411 864 042
NSW Rural Fire Services	(02)6736 4150
In Case of Fire	000
Tenterfield Water & Sewerage Services	0411 770 703
Urbenville Water & Sewerage Services	0427 496 541
Roads & Streets	0427 937 987

Council apologises for any inconvenience this may cause.

**RATES & CHARGES SECOND INSTALMENT NOTICE
2022-2023**

Council wishes to advise Residents and Business Owners that the Second Rates Instalment Notices will be issued at the end of October 2022 and are due for payment on or before 30 November 2022.

Please contact Council's Rates Department on 02 6736 6000, option 2, if you are experiencing difficulties paying your Rates to avoid recovery action and costs.

WATER METER READING

Water meter readings are scheduled to commence on the 25 October 2022 and will continue until the end of November.

In order to help Council staff it would be appreciated if property owners could:-

- * Trim back/remove shrubbery or trees that are obstructing water meters.
- * Contact Council Staff if you have locked gates to organise a time for the meter to be read.
- * Contact Council staff if you have dog/s that need to be restrained.

Water & Sewerage Notices will be issued at the end of December 2022. Payments of accounts are due on or before 1 February 2023. Ratepayers are reminded that interest accrues on all overdue rates, service charges and water and sewerage consumption charges on a daily basis at a rate of 6% per annum.

WATER TREATMENT PLANT UPDATE

Tenterfield Shire Council's Water Treatment Plant is taking shape with major components beginning to be installed on site. With the building frame being erected, numerous tanks for the treatment process are already on the ground, including the first filter vessel taking its place inside the building.

In the coming weeks we are expecting to see all major components of the treatment process being lifted into place and construction of the building to be completed allowing for all internal pipework and fittings to be installed.

There will be more updates to come as Tenterfield's new Water Treatment Plant begins to take shape!

**UPDATES ON THE NEW GRID FOR URBENVILLE
AND VILLAGE BORE PROGRAM FOR
TORRINGTON, LISTON, DRAKE & LEGUME**

Tenterfield's New Grid Grant for upgrades to the water treatment and sustainability for Urbenville, Muli Muli, and Woodenbong Water System (UMMWW) has progressed along with the Sustainable and Disaster Resilient Communities program to provide a water source and minor reticulation activities as part of the Village bore program for Torrington, Liston, Legume and Drake.

The hydrogeologist report has been completed following initial site inspections. The bores tender for drilling has been awarded and the drilling of bores is expected to commence early next month, pending approvals from NRAR. The bore drilling will commence at Urbenville with the expectation this bore will provide the secondary source required to ensure water for Urbenville and Kyogle into the future. The second site is expected to be Legume under the village bore program.

Dispensing Machine ready to be unwrapped

Reticulation systems will be basic, as predominantly pump systems for groundwater water holding tanks and standpipe/dispenser delivery systems including solar systems, which have been purchased and are awaiting installation after bores have been drilled and tested.

The dispensing stations are expected to be similar to the dispensing stations installed at Urbenville and Tenterfield, however; are expected to be non-potable sources (for stock, gardens and fires).

NOTICE OF DEVELOPMENT CONSENT

Notice is hereby given pursuant to *Section 4.59* of the Environmental Planning & Assessment Act, 1979 and *Clause 124* of the Environmental Planning & Assessment Regulations 2000 that Consent has been granted to the following developments for the month of **September 2022**:

- DA 2022.097** 317 Schrodgers Road, Tenterfield Alterations and Additions, Swimming Pool, Fence and Deck
- DA 2022.101** 180 Dalmoak Road, Ruby Creek Dwelling
- DA 2022.104** 89 Molesworth Street, Tenterfield Alterations/Additions to Dwelling
- DA 2022.105** 3 Riley Street, Tenterfield Shed
- CDC2022.107** 19 Haddocks Road, Tenterfield Dwelling
- CDC2022.109** 25 Douglas Street, Tenterfield Carport
- DA 2022.110** 6289 Mt Lindesay Road, Wylie Creek Farm Shed
- DA 2022.111** 38 Neagles Lane, Tenterfield Shed
- DA 2022.115** 40 Molesworth Street, Tenterfield Alterations and Additions
- DA 2022.121** 46A Neagles Lane, Tenterfield Shed
