VILLAGE BORE COMMENCEMENT AT DRAKE

Tenterfield Shire Council received the Bushfire Local Economic Recovery (BLER) Fund grant. The BLER grant is being used to provide livestock and enhance firefighting capabilities in the villages of Legume, Liston, Torrington, and Drake.

The first and second bores have been completed at Legume and Liston with Drake bore to commence drilling in the village of Drake, located, near the RFS station at Drake. The drilling is expected to commence from 17 April 2025.

Once completed, the bore will be a firefighting, and livestock bore available for the community to use.

Council appreciates your patience in supplying the Village bore for Drake.

This project is jointly funded by Tenterfield Shire Council together with the Australian and NSW Government's Bushfire Local Economic Recovery Fund.
